MAJOR R. W. MILLSAPS

Register of Millsaps College
Jackson, Mississippi
1922-1923

The Thirty-Second Session Begins
September 12, 1923

CALENDAR 1923-1924

THIRTY-SECOND SESSION begins Wednesday, September 12.

ENTRANCE EXAMINATIONS in Latin, Greek, History, and
Science, September 12.

ENTRANCE EXAMINATIONS in English, Mathematics, and
Modern Languages, September 13.

RECITATIONS BEGIN September 14.

THANKSGIVING DAY, November 29.

EXAMINATIONS, First Term, November 24 through December 1.

SECOND TERM BEGINS December 3.

M. I. O. A. CONTEST, December 11.

CHRISTMAS HOLIDAYS, from noon Friday, December 21, to
the morning of Thursday, January 3rd, 1924.

EXAMINATIONS, Second Term, March 1 through March 8.

THIRD TERM BEGINS March 9.

CAMPUS DAY, April 1.

Y. M. C. A. REVIVAL SERVICES, March 11-18.

EXAMINATIONS, Third Term, May 28 through June 4.

CONTEST FOR BUIE MEDAL in Declamation, May 24.

COMMENCEMENT EXERCISES begin May 24.

COMMENCEMENT SUNDAY, May 25.

ANNUAL MEETING OF BOARD OF TRUSTEES, May 26.

CONTEST FOR CARTER MEDAL in Oratory, May 26.

COMMENCEMENT DAY, May 27.

OFFICERS AND FACULTY.
HISTORY AND ORGANIZATION.
FACULTIES.

FACULTIES.

REV. ALEXANDER FARRAR WATKINS, B.A., D.D.,
President

JOHN MAGRUDER SULLIVAN, M.A., Ph.D.,
Vice-President.

J. REESE LIN, M.A.,
Secretary.

GEORGE LOTT HARRELL, B.S., M.S.,
Registrar.

REV. M. M. BLACK, B.A., M.A.,
Treasurer.

D. M. KEY, M.A., Ph.D.
Librarian.

B. E. MITCHELL, M.A., Ph.D.,
Assistant Librarian.

ALBERT GODFREY SANDERS, B.A., M.A.,
Assistant Librarian.

MRS. MARY BOWEN CLARK
Assistant Librarian

MISS CARRIE SISTRUNK,
Secretary to the President.

THE COLLEGE FACULTY AND ASSISTANTS.

ALEXANDER FARRAR WATKINS, B.A., D.D.,
(President's Home, College Campus.)

Member of the Mississippi Annual Conference since 1883.
Student Centenary College, 1879-81; B.A., Vanderbilt University, 1883; D.D., Centenary College, 1900; President, Whitworth Female College, Brookhaven, Miss., 1900-02; elected President Millsaps College, June, 1912.

JOHN MAGRUDER SULLIVAN, M.A., Ph.D.,
Professor of Chemistry and Geology.
(College Campus.)

B. A., Centenary College, Louisiana, 1887; M. A., University of Mississippi, 1890; M.A., Vanderbilt University, 1897; Ph.D., Vanderbilt University. 1900; Principal Centenary High

School, 1887-89; Professor Natural Science, Centenary College, Louisiana, 1889-1902; Assistant in Astronomy, Vanderbilt University, 1896; Graduate Student in Chemistry and Geology, University of Chicago, Summer Terms of 1907, 1908 and 1911; Professor in Millsaps College since 1902.

GEORGE LOTT HARRELL, B.S., M.S.

Professor of Physics and Astronomy.

(812 Arlington Avenue.)

B.S., Millsaps College, 1899; M. S., Millsaps College, 1901; Professor of Science, Whitworth College, 1899-1900; Professor of Physics and Chemistry, Hendrix College, 1900-02; Professor of Natural Science, Centenary College of Louisiana, 1902-04; Professor of Mathematics and Astronomy, Epworth University, Oklahoma, 1904-08; Professor of Mathematics and Astronomy, Centenary College of Louisiana, 1908-09; President of Mansfield Female College, 1909-10; Professor of Science, Winnfield High School, 1910-11; Professor of Mathematics, Louisiana State University (Summer), 1911; Graduate Student, University of Chicago, Summers 1900 and 1902; Professor in Millsaps College since 1911.

J. REESE LIN, M.A.,

Professor of Philosophy and History.

(720 Arlington Avenue.)

B.A., Emory College; Fellow in Vanderbilt University, 1894-1896; M.A., Vanderbilt University; Sage Fellow in Philosophy in Cornell University, 1910-1912; Superintendent Wesson Schools, 1899-1901; Superintendent Natchez Schools, 1901-1907; Superintendent Alexandria, Louisiana, Schools, 1907-1909; Student in Columbia University, Summer Terms of 1908 and 1910; Instructor in History, University of Mississippi, Summer Terms of 1902, 1903, and 1904; Instructor in Psychology and English Literature, Tulane University, Summer Term of 1909; Professor of Philosophy and Education in Central College, Missouri, 1909-1912; Professor in Millsaps College since 1912.

BENJAMIN ERNEST MITCHELL, M.A., Ph.D.,
Professor of Mathematics.
(727 Arlington Avenue.)

B.A., Scarritt-Morrisville, Mo.: M.A., Vanderbilt; Ph.D., Columbia; Professor of Mathematics, Scarritt-Morrisville College, 1903-1906, Scholastic Fellow in Vanderbilt University, 1906-1907, Teaching Fellow, 1907-1908; Instructor in Mathematics and Astronomy, 1908-1912, Vanderbilt University; Student, Columbia University, 1912-1914; Tutor in Mathematics, College of the City of New York, 1912-1913; Instructor, Columbia Extension Teaching, 1913-1914; Professor of Mathematics in Millsaps College since 1914.

DAVID MARTIN KEY, M.A., Ph.D.,
Professor of Ancient Languages.
(1276 N. President Street.)

B.A., Central College, 1898; M.A., Vanderbilt, 1906; Professor of Ancient Languages, Morrisville College, 1903-05; Fellow and Assistant in Latin and Greek, Vanderbilt, 1906-1907; Graduate Student, University of Chicago, Summer of and Session of 1913-14; Ph.D., University of Chicago, 1916; Professor of Ancient Languages, Southern University, 1907-1915; Professor of Ancient Languages, Millsaps College since 1915.

STUART GRAYSON NOBLE, A.B., M.A., Ph.D.,
Professor of Education.
(745 N. State Street.)

B.A., University of North Carolina, 1907; M. A., University of Chicago, 1910; Graduate Scholar, Teachers' College, Columbia University, 1914-1915; Ph.D., Columbia University, 1918; Instructor Millsaps Preparatory School, 1908-1911; Headmaster, Millsaps Preparatory School, 1911-1916; Professor of Education, University of Mississippi, Summer, 1917; Professor of Education, University of North Carolina, Summers of 1919 and 1920; Professor of Education, George Peabody College for Teachers, Summer, 1921; Professor of Education, Millsaps College since 1916.

ALFRED PORTER HAMILTON, M.A., Ph.D.,
Professor of Greek and German.
(820 Arlington Avenue.)

B.A., Southern University, 1908; M.A., University of Pennsylvania, 1911; Ph.D., Ibid, 1923; Assistant Professor of Ancient Languages, Southern University, 1908-1909; Graduate Student, University of Leipzig, 1908-1910; Harrison Fellow in Latin, University of Pennsylvania, 1910-1911; Harrison Fellow in Indo-European Comparative Philology, University of Pennsylvania, 1911-12; Student in University of Chicago, Summers of 1914 and 1920; Professor of Latin and German, Woman's College of Alabama, 1912-1917; Instructor in Latin, University of Pennsylvania, 1921-1922; Professor in Millsaps College since 1917.

ALBERT GODFREY SANDERS, B. A., M. A.
Professor of Romance Languages.
(735 Arlington Ave.)

B. A., Yale University, 1907; Rhodes Scholar, 1907-1910; B. A., University of Oxford (Honors School), 1910; M. A., 1914; Fellow in Classics, Yale University, 1910-1912; Acting Professor of Greek, Emory University, 1912-1913; Professor of Romance Languages, Emory and Henry College, 1913-1919; Professor in Millsaps College since 1919.

MILTON CHRISTIAN WHITE, M.A.
Professor of English
(1715 Edgewood Ave.)

B. A. Southern University, 1910; Professor of English, Barton Academy, Mobile, Alabama, 1910-1912; Graduate Student, Harvard University, 1912-1914; M. A., Harvard University, 1914; Instructor, Peacock's School, 1914-1915; Professor of English, Alabama Presbyterian College, 1915-1918; Professor of History, Austin College, 1918-1920; Professor in Millsaps College since 1920.

CAWTHON ASBURY BOWEN, M.A.
Professor of Religious Education.
(6 Park Ave.)

Two years undergraduate work, Millsaps College. B. A. Emory College, 1906; M. A., Vanderbilt University, 1908. In the

BENJAMIN ERNEST MITCHELL, M.A., Ph.D.,
Professor of Mathematics.

ADMINISTRATIVE COMMITTEES.

The President is ex-officio a member of all Committees.

ADMISSIONS: Professors Harrell, Lin, Ferguson.

ALUMNI AND ANNUAL CONFERENCES: Professors Sullivan, Harrell, Black.

ATHLETICS: Professors Key, Mitchell, White.

CAMPUS IMPROVEMENTS: Professors Lin, Hamilton, Bowen.

COLLEGE PUBLICATIONS: Professors Noble, Sullivan, Sanders.

FRATERNITIES AND HONOR COUNCIL: Professors Lin, Harrell, Noble.

GENERAL PUBLICITY: Professors Bowen, Sanders, Ferguson.

INTER-COLLEGIATE RELATIONS: Professors Lin, Key, Noble.

LIBRARY: Professors Key, Mitchell, Sanders.

LITERARY SOCIETIES: Professors Hamilton, White, Bowen.

PUBLIC LECTURES AND MUSIC: Professors Mitchell, Hamilton, Patch.

SCHEDULE AND CURRICULUM: Professors Harrell, White, Huddleston.

SUPPLIES AND REPAIRS: Professors Black, Sullivan, Key.

YOUNG MEN'S CHRISTIAN ASSOCIATION: Professors Sullivan, White, Ferguson.

NOTES.

The Committee on Admission will also have charge of the work of Classification of Students.

The Committee on Literary Societies will exercise control also of Inter-Collegiate Debates and Oratorical Contests.

The Committee on College Publications will be charged also with the matter of College Publicity through the public press, etc.

The Committee on Public Lectures will have charge of visits and addresses from occasional distinguished visitors.

The Library Committee is expected to have charge of the distribution of the funds available for the benefit of the different departments, and to decide upon the magazines with which the reading rooms are to be supplied.

HISTORY

The Charter of Millsaps College which was granted February 21, 1890 reads as follows:

AN ACT to incorporate Millsaps College.

SECTION 1. Be it enacted by the Legislature of the State of Mississippi, That Thomas J. Wheat, Samuel M. Thames, Thomas J. Newell and Rufus M. Standifer, of the North Missis-

ssippi Conference of the Methodist Episcopal Church, South, and Gawin D. Shands, David L. Sweatman, James B. Streater, and John Trice, lay members of said church within bounds of said Conference, and Thomas L. Mellen, Warren C. Black, Alexander F. Watkins and Charles G. Andrews, members of the Mississippi Conference of said church, and Marion M. Evans, Luther Sexton, William L. Nugent, and Reuben W. Millsaps, of Jackson, lay members of said church, within the bounds of said Mississippi Conference, and Bishop Charles B. Galloway, be and they are hereby constituted a body corporate and politic by and under the name and style of Millsaps College, and by that name they and their successors may sue and be sued, plead and be impleaded, contract and be contracted with, and have a common seal and break the same at pleasure, and may accept donations of real and personal property for the benefit of the College hereafter to be established by them, and contributions of money or negotiable securities of every kind in aid of the endowment of such College; and may confer degrees and give certificates of scholarships and make by-laws for the government of said College and its affairs, as well as for their government, and do and perform all other acts for the benefit of said institution and the promotion of its welfare that are not repugnant to the Constitution and laws of this State of the United States, subject however, to the approval of the said Conferences.

Sec. 2. As soon as convenient after the passage of this Act, the persons named in the first section thereof shall meet in the City of Jackson, in this State, and organize by acceptance of the charter and the election of Bishop Charles B. Galloway as their permanent President, and of such other persons as they may determine to fill the offices of Vice-President, Secretary and Treasurer, and shall prescribe the duties, powers and terms of office of all said officers, except as to the term of their said President, who shall hold office during life or good behavior, or so long as he may be physically able to discharge his duties.

They shall also select by lot from the lay and clerical Trustees from each of said Conferences, one-half, who shall be trustees of said College for three years and until their successors are elected, and the other half not so selected shall remain in office for the term of six years and until their successors are chosen,

as hereinafter mentioned. Upon the death, resignation or removal of said Galloway, or his permanent physical disability to discharge the duties of his office, the said Trustees may elect their President and prescribe his duties, powers and term of office.

Sec. 3. That the said Trustees shall, before the meeting of said Conference next before the expiration of the term of office of any of their number, notify the secretary of said Conferences thereof, and the vacancies shall be filled by said Conferences in such a way and at such time as they may determine, and the persons so selected shall succeed to the office, place, jurisdiction, and powers of the Trustees whose terms of office have expired. And the said corporation and the College established by it shall be subject to the visitorial powers of said Conferences at all times, and the said College, its property and effects shall be the property of said Church under the special patronage of said Conferences.

Sec. 4. That the said Trustees, when organized, as hereinbefore directed, shall be known by the corporate name set out in the first section of this Act, and all money, promissory notes and evidence of debt heretofore collected under the direction of said Conferences for said College shall be turned over to and receipted for by them in their said corporate name, and the payee of all such notes and evidences of debt shall endorse and assign the same to the corporation herein provided for, which shall thereafter be vested with the full legal title thereto, and authorized to sue for and collect the same.

The said corporation shall have the power to select any appropriate town, city, or other place in this State at which to establish this College, and to purchase grounds not to exceed one hundred acres as a building site and campus therefor, and erect thereon such buildings, dormitories, and halls as they may think expedient and proper to subserve the purposes of their organization and the best interest of said institution, and they may invite propositions from any city or town or individual in the State for such grounds, and may accept donations or grants of land for the site of said institution.

Sec. 5. That the land or grounds not to exceed one hundred acres used by the corporation as a site and a campus for said College, and the buildings, dormitories and halls thereon erected, and the endowment fund contributed to said College shall be exempt from all State, County and Municipal taxation so long as the said College shall be kept open and maintained for the purpose contemplated by this Act, and no longer.

Sec. 6. That the cost of education shall, as far as practicable, be reduced by said corporation to the lowest point consistent with the efficient operation of said College, and to this end reports shall be made to the said Conferences from year to year, and their advice in that behalf taken, and every reasonable effort shall be made to bring a collegiate education within the reach and ability of the poorer classes of the State.

Sec. 7. That this Act take effect and be in force from and after its passage.

The College has its origin in the general policy of the Methodist Church to maintain institutions under its own control for higher learning in the Arts and Sciences.

At the annual session of the Mississippi Conference in the City of Vicksburg, on December 7, in the year 1888, the following resolutions were adopted by a large majority of the Conference:

"Resolved, 1, That a college for males under the auspices and control of the Methodist Episcopal Church, South, ought to be established at some central and accessible point in the State of Mississippi.

"2. That a committee of three laymen and three preachers be appointed to confer with a like committee to be appointed by the North Mississippi Conference to formulate plans and to receive offers of donations of lands, buildings, or money for that purpose, and report to the next session of this Conference."

In accordance with this action, the President of the Conference, Bishop R. K. Hargrove, appointed the following committee: Rev. T. L. Mellen, Rev. W. C. Black, Rev. A. F. Watkins, Major R. W. Millsaps, Col. W. L. Nugent, and Dr. Luther Sexton.

On December 12, 1888, the North Mississippi Conference met at Starkville, Mississippi, Bishop C. B. Galloway presiding. The Rev. T. L. Mellen appeared and reported the action taken by the Mississippi Conference. The following transcript from the North Mississippi Conference Journal gives the response made by that body:

"Resolved, 1. That a College for the education of boys and young men should be established in the State of Mississippi under the auspices of the Methodist Episcopal Church, South.

"That a committee of three laymen and three ministers be appointed to confer with a like committee already appointed by the Mississippi Conference."

The following committee was accordingly appointed: Rev. J. J. Wheat, Rev. S. M. Thames, Rev. T. J. Newell, Hon. G. D. Shands, Capt. D. L. Sweatman, and Mr. J. B. Streater.

To the action of these Conferences we may trace the direct origin of the College.

The joint commissions constituted by the action summarized above met in the City of Jackson in January, 1889. The Rev. Dr. J. J. Wheat was called to the chair. In stating the purpose of the meeting he made a stirring appeal in behalf of the proposition to establish a Methodist College in Mississippi for the education of young men. In response to this earnest appeal Major R. W. Millsaps, a member of the commission, proposed to give \$50,000 to endow the institution, provided the Methodists of Mississippi would give a sum equal to this amount for said purpose. This proposition was enthusiastically approved, and after a plan of procedure was adopted, Bishop Charles B. Galloway was invited to conduct a campaign in the interest of the proposed endowment fund.

Under the direction of this distinguished leader, the most gratifying progress was reported from time to time. The report submitted to the Conferences by the committee in December, 1889, refers to the movement in the following language:

"The canvass, on account of the numerous necessitated absences of Bishop Galloway from the State, could

not be continuously carried on, but even the partial canvass made, embracing not more than one-fifth of our territory, resulted in the most gratifying and encouraging success. The interest awakened in the enterprise has extended beyond the limits of our own Church, and is felt by every denomination of Christians, and by every section of the State. It is safe to say that no effort of Methodism has ever kindled such enthusiasm in our State or evoked such liberal offerings to the Lord. The fact has been demonstrated that the Church is profoundly convinced that the College is an absolute necessity."

The report continues:

"So high is the appreciation of the value of the proposed institution, that numerous towns in the State have entered into earnest competition to secure the location of the college within the limits of their respective borders, offering from \$10,000 to \$36,000, and from twenty to eighty acres of land."

In December, 1889, the Rev. A. F. Watkins, a member of the Mississippi Conference, was appointed a special agent to co-operate with Bishop Galloway in all matters pertaining to the endowment of the proposed College. As the work of raising the sum designated in the original proposition progressed, and \$25,000 had been collected, Major Millsaps in the year 1890 paid \$25,000 into the College treasury.

In December, 1892, the Rev. J. W. Chambers was appointed agent for the College, and on December 30, 1893, he reported that the full amount had been collected to meet the terms of Major Millsaps' proposition, and thereupon \$25,000 was immediately paid by Major Millsaps to the Executive Committee and the following resolution was adopted:

"Resolved, That the Executive Committee return our most heartfelt thanks to Major R. W. Millsaps for his second gift of \$25,000, this day turned over to us. For his princely liberality and unflinching interest in the

great enterprise so happily and successfully inaugurated, the Church and State owe him a large debt of gratitude."

The Conference having provided for a Board of Trustees, the joint commission dissolved in January, 1890. This Board, to which was referred the matter of organizing the College, was composed of the following:

BISHOP CHARLES B. GALLOWAY, President

REV. W. C. BLACK, D. D.	REV. S. M. THAMES
REV. T. L. MELLEN	REV. T. J. NEWELL

HON. M. M. EVANS	REV. W. W. WHEAT, D. D.

After the Board organized under the charter, the question of locating the College was considered with great care. The Board met repeatedly to consider the offers made by different towns, and finally on May, 20, 1891, while in session in Winona, Mississippi, decided to locate the College in Jackson, the capital of the State. The citizens of Jackson contributed \$21,000 for grounds and buildings, and to this sum Major Millsaps added \$15,000. Plans for a commodious main building were immediately procured, grounds were purchased, and in a comparatively short time buildings were in process of erection.

MILLSAPS COLLEGE

The College opened its doors for the reception of students in 1892 with Rev. W. B. Murrah as President, and three professors in the College. A Preparatory School was opened at the same time with one Master. From time to time its facilities have been enlarged and additional departments created, until it now has, in addition to its President, fifteen professors in thirteen departments.

The Presidents of the College have been Rev. W. B. Murrah, now Bishop Murrah (1892-1910), Professor D. C. Hull (1910-1912), and Rev. A. F. Watkins, D. D., (1912- .)

The unusual facilities for conducting a Law School in Jackson led to the establishment in 1896, of a Law School. Hon. Edward Mayes, ex-Chancellor of the University of Mississippi, and for more than fourteen years a professor of law in that institution, took active control of the new school. In 1918 it was discontinued.

In 1911 the Academy was formally separated from the College. It was made a distinct institution with the official title of the Millsaps Academy. In 1922 it was discontinued.

The facilities of the College were enlarged in 1895-1896 by the generosity of Major Millsaps, who gave Webster Science Hall. In 1901 Mr. Dan A. James, of Yazoo City, built an observatory for the College, in memory of his father, Mr. Peter James, and of his brother Mr. Samuel James, and furnished it with a fine telescope. Millsaps College can thus offer unusual advantages in astronomy. In 1902, to supply the increasing demand for better dormitory and dining hall facilities, Major Millsaps gave the College the property formerly known as Jackson College, costing more than \$30,000. This enabled the College to fill the demands made on it at that time. In addition to this gift Major Millsaps gave fifty acres of land immediately adjoining our campus, and valued at \$50,000. Ample provision is thus made for the future expansion of the College.

In 1906 the General Education Board offered to donate, from the funds provided by John D. Rockefeller for Higher Education,

\$25,000, provided an additional sum of \$75,000 should be collected from other sources, for the permanent endowment of the College. Rev. T. W. Lewis, of the North Mississippi Conference was made financial agent of the College to collect this sum. In 1910 \$32,279.10 had been collected for this purpose. Mr. I. C. Enochs, a generous citizen of Jackson, gave an additional \$5,000. Major Millsaps, with characteristic generosity, contributed the remaining \$37,720.90. Thus the endowment of the College was increased by \$1000,000.

At the Commencement of 1913 Major Millsaps gave to the College property on Capitol street, Jackson, valued at \$150,000. This is the largest single gift to the College.

The dormitory of the Preparatory School was destroyed by fire in 1913, but it was promptly rebuilt and made more valuable by alterations which also improved greatly the appearance of the structure. A more disastrous fire destroyed the main building in 1914. But within a few months the old structure had been replaced by a far more commodious and imposing administration building, costing \$60,000.

In 1917 the late Mr. George W. Galloway, of Madison County, established a scholarship in Millsaps College to be known as "The Marvin Galloway Scholarship," in memory of his son, the late Dr. Marvin Galloway, a graduate of Millsaps College in the class of 1902.

At the decease of Major Millsaps in 1916, it was found that he had left for the endowment of the College life insurance to the amount of of \$88,000. This final benefaction fittingly closed the long list of his gifts to the College.

In 1921 Rev. J. M. Burton, of Culpeper, Virginia, in memory of his son, Doctor John Marvin Burton, an honored professor in Millsaps College who left his class room for service in France, where he gave his life for his country, donated to Millsaps College the proceeds of the life insurance of his son, amounting to \$10,000.

The following statement of the resources of the College, while not inclusive of all sources of its revenue, gives some idea of the solidity of its foundation, and also furnishes a guarantee of its perpetuity:

Productive endowment, including revenue producing property	\$583,421
Unproductive Endowment	50,000
Buildings and grounds	310,373
Value of library	15,000
Value of Chemical, Physical and Biological apparatus.....	10,000
Furniture and Fixtures	15,000
Total	<u>\$983,794</u>

One of the purposes which the College keeps constantly in view is indicated by the following section of the charter:

"The cost of education shall, as far as practicable, be reduced to the lowest point consistent with the efficient operation of said College, and every reasonable effort shall be made to bring collegiate education within the reach of the poorer classes of the State."

With a productive endowment of nearly \$600,000, and buildings and grounds worth \$310,000, it rests on a foundation which assures its perpetuity. It has the support of a great religious denomination, yet it is not sectarian in its policy. It numbers among its patrons, representatives of all the Christian churches.

Since 1912 Millsaps College has been a member of the Association of Colleges and Secondary Schools of the Southern States, a distinction enjoyed by only three other institutions in this State. An impartial committee of the Association made exhaustive inquiry into the financial resources of the institution, its courses, the training of its instructors, and the character of its work, and unanimously recommended it for membership. This inquiry extended over a year, and no conditions whatever were imposed for the election of the College, since it had been of the first rank for some years. Its degrees are recognized by all institutions of learning as among the best in the land.

During the Christian Education Campaign of 1921 Mr. W. S. F. Tatum, a generous layman of Hattiesburg, donated

\$100,000 to the College for the establishment of the Department of Religious Education. The Board of Trustees at their next annual meeting accepted the gift, giving the department the name of the generous donor. The department was organized at the opening of the session of 1921-'22, with Professor C. A. Bowen in charge. Provision was made in the deed of gift for the employment of an Associate Professor and in June, 1922, Professor J. L. Ferguson was chosen to fill this chair. Millsaps College now has two professors giving their entire time to the work of this department.

PART II.

ENTRANCE REQUIREMENTS.

ANNOUNCEMENTS AND REGULATIONS.

EXPENSES.

CONDITIONS OF ENTRANCE

For admission to Millsaps College, the general conditions are as follows:

1. **Good Character**—As attested by the certificate from the school last attended, or other valid proof.

2. **Adequate Preparation**—As shown by the certificate of an accredited school, or an equivalent examination.

Students are admitted to Millsaps College as:

1. Full Freshman.

2. Special Students.

For admission as Full Freshmen, the candidate must offer fifteen units as specified below. English 3 units, Math. $2\frac{1}{2}$ units, History 2 units, Foreign Language 2 units in one Language. If the candidate elects Latin as one of the Foreign Languages for his degree three units in that subject must be offered for entrance.

For admission as a Special Student, the candidate must present adequate proofs of good character, and of the needful maturity and training. Such students must in all cases meet the specific entrance requirements, as prescribed for the courses elected by them. But it is expressly ordered that no special student shall be recognized as a candidate for any degree from Millsaps unless he shall have completed all entrance requirements at least one year before the date of graduation.

ENTRANCE REQUIREMENTS

The unit in the following estimate (p.28) means a subject of study pursued in an academy or high school through a session of nine months with recitations five times a week, an average of forty-five lesson minutes being devoted to each recitation.

SUBJECTS ACCEPTED FOR ADMISSION

The subjects accepted for admission and their value in units are given in tabulated form on the next page. Fuller definitions of the units follow immediately after. The applicant for admission may enter either by certificate or by examination.

For admission by certificate, the candidate should file with the Registrar of the College, not later than the opening day, a certificate of preparation, made out on a blank form furnished by the State High School Inspector to the principal of the high school. A copy of this certificate may be found in the back of this register. This certificate must come from some recognized institution of collegiate rank, or an **accredited*** high school or academy. It must bear in all cases the signature of the head of the school, must specify the character and contents of each course offered for entrance credit; must give the length of time devoted to the course, and must give the candidate's grades in percentage. In the scientific courses two hours of laboratory instruction will be counted as the equivalent of one hour recitation. Certificate of preparation from private tutors will in no case be accepted. Students thus prepared must in all cases take the entrance examinations.

For admission by examination, the candidate must present himself at the College in September, according to dates given in the Program of Entrance Examinations, if the examination has not been previously taken.

*See pages 39-45 for list of accredited schools.

ENTRANCE REQUIREMENTS
Subjects Accepted for Admission

SUBJECT	TOPICS	UNITS
English A	Higher English Grammar	1½
English B	Elements of Rhetoric and Composition	1
English C	English Literature	1½
Mathematics A	Algebra to Quadratic Equations	1
Mathematics B	Quadratics through Progression	1½ to 1
Mathematics C	Plane Geometry	1
Mathematics D	Solid Geometry	1½
Mathematics E	Plane Trigonometry (exceptional cases)	1½
Mathematics F	*Mechanical Drawing	1½
Mathematics G	Advanced Arithmetic	1½
Latin A	Grammar and Composition	1
Latin B	Caesar, four books or their equivalent	1
Latin C	†Cicero, six orations	1
Latin D	†Vergil, the first six books of the Aenied	1
Greek A	Grammar and Composition	1
Greek B	Xenophon, first four books of the Anabasis....	1
French A	One-half Elementary Grammar and at least 175 pages of approved reading	1
French B	One-half Elementary Grammar and at least 175 pages of approved reading	1
Spanish A	One-half Elementary Grammar and at least 175 pages of approved reading	1
Spanish B	One-half Elementary Grammar and at least 175 pages of approved reading	1
German A	One-half of Elementary Grammar and 75 to 100 pages of approved reading	1
German B	Elementary Grammar completed, and 150 to 300 pages of approved reading	1
History A	Ancient History	1
History B	Mediaeval and Modern History	1
History C	English History	1
History D	American History, or American History and Civil Government	1
Science A	Chemistry	1
Science B	Physics	1
Science C	Botany	1
Science D	Zoology	1
Science E	Physiography	1
Science F	Physiology	1
Science G	Agriculture	1 to 2
	General Science	1
	Home Economics	1
	Economics	1
	Manual Training	2
	Bookkeeping	2
	Commercial Law	1½
	Stenography	1
	Typewriting	1
	Physical Training	1

NOTE—Students who seek credit for Chemistry, Physics, Botany, or Zoology should present their laboratory note-books in addition to certificate of their courses.

*Conditioned on the presentation of an equal amount of Geometry.

†In place of a part of Cicero an equivalent of Sallust's Catiline, and in place of a part of Vergil an equivalent of Ovid will be accepted.

NOTE—Entrance blank may be found in back of this Register.

DEFINITIONS OF UNITS.

The following definitions of the units in the requirements for entrance are designed on the one hand to guide the student in his preparation for the entrance examinations, and on the other to govern the high school principal and teacher in organizing the courses of study.

ENGLISH.

The requirement in English is that recommended by the National Conference on Uniform Entrance Requirements in English.

DEFINITION OF THE REQUIREMENT FOR 1923-1925.

Habits of correct, clear, and truthful expression. This part of the requirement calls for a carefully graded course in oral and written composition, and for instruction in the practical essentials of grammar, a study which ordinarily should be reviewed in the secondary school. In all written work constant attention should be paid to spelling, punctuation, and good usage in general as distinguished from current errors. In all oral work there should be constant insistence upon the elimination of such elementary errors as personal speech-defects, foreign accent, and obscure enunciation.

Ability to read with intelligence and appreciation works of moderate difficulty; familiarity with a few masterpieces. This part of the requirement calls for a carefully graded course in literature. Two lists of books are provided from which a specified number of units must be chosen for reading and study. The first contains selections appropriate for the earlier years in the secondary school. These should be carefully read, in some cases studied, with a measure of thoroughness appropriate for immature minds. The second contains selections for the closer study warranted in the later years. The progressive course formed from the two lists should be supplemented at least by home reading on the part of the pupil and by class-room reading on the part of pupils and instructor. It should be kept constantly in mind that the main purpose is to cultivate a fondness for good literature and to encourage the habit of reading with discrimination.

LIST OF BOOKS FOR 1923-1925.

A. BOOKS FOR READING.

From each group two selections are to be made, except that for any book in Group V a book from any other may be substituted.

Group I.

Dickens: "A Tale of Two Cities."

George Eliot: "Silas Marner."

Scott: "Quentin Durward."

Stevenson: "Treasure Island" or "Kidnaped."

Hawthorne: "The House of the Seven Gables."

Group II.

Shakespeare: "Merchant of Venice," "Julius Caesar."

"King Henry V," "As You Like It."

Group III.

Scott: "The Lady of the Lake."

Coleridge: "The Ancient Mariner;" and Arnold: "Sohrab and Rustum."

A collection of representative verse, narrative, and lyric.

Tennyson: "Idylls of the King" (any four).

The "Æneid" or the "Odyssey" in a translation of recognized excellence, with the omission, if desired, of Books I-V, XV, and XVI of the "Odyssey."

Group IV.

The Old Testament—the chief narrative episodes in Genesis, Exodus, Joshua, Judges, Samuel, Kings, and Daniel, together with the books of Ruth and Esther.

Irving: "The Sketch Book" (about 175 pages).

Addison and Steele: "The Sir Roger de Coverley Papers."

Macauley: "Lord Clive."

Parkman: "The Oregon Trail."

Franklin: "Autobiography."

Group V.

A modern novel.

A collection of short stories (about 150 pages).

A collection of contemporary verse (about 150 pages).

A collection of prose writings on matters of current interest (about 150 pages).

Two modern plays.

All selections from this group should be works of recognized excellence.

B. BOOKS FOR STUDY.

One selection to be made from each group.

Group I.

Shakespeare: "Macbeth," "Hamlet."

Group II.

Milton: "L'Allegro," "Il Penseroso," and either "Comus" or "Lycidas."

Browning: "Cavalier Tunes," "The Lost Leader," "How They Brought the Good News From Ghent to Aix," "Home Thoughts From Aboard," "Home Thoughts From the Sea," "Incident of the French Camp," "Herve Riel," "Pheidippides," "My Last Duchess," "Up At a Villa—Down in the City," "The Italian in England," "The Patriot," "The Pied Piper," "De Gustibus," "Instans Tyrannus," "One Word More."

Group III.

Macaulay: "Life of Johnson."

Carlyle: "Essay on Burns," with a brief selection from Burns' "Poems."

Arnold: "Wordsworth," with a brief selection from Wordsworth's "Poems."

Group IV.

Burke: "Speech on Conciliation with America."

A collection of orations, to include at least Washington's Farewell Address, Webster's First Bunker Hill Oration, and Lincoln's Gettysburg Address.

A FOURTH UNIT IN ENGLISH

An additional unit may be secured by students who have taken a full four-year course in a school (1) which offers an opportunity for the study of English classics and composition beyond the minimum requirements as interpreted in the foregoing

statement; or (2) which offers an opportunity for the study of the History of English Literature or the History of American Literature, with extensive selections from representative authors and with additional work in composition. Only those schools which have exceptional facilities for teaching English should offer the fourth unit in that subject.

Examinations.

However accurate in subject matter, no paper will be considered satisfactory if seriously defective in punctuation, spelling, or other essentials of good usage.

The examination will be divided into two parts, one of which will be on Grammar and Composition, and the other on Literature. In Grammar and Composition, the candidate may be asked specific questions upon the practical essentials of these studies, such as the relation of the various parts of a sentence to one another, the construction of individual words in a sentence of reasonable difficulty, and those good usages of modern English which one should know in distinction from current errors. The main test in composition will consist in one or more essays, developing a theme through several paragraphs; the subject will be drawn from the books read, from the candidate's other studies, and from his personal knowledge and experience quite apart from reading. For this purpose the examiner will provide several subjects perhaps eight or ten, from which the candidate may make his own selections. He will not be expected to write more than four hundred words per hour.

The examination in Literature will include: **A**, General questions designed to test such a knowledge and appreciation of Literature as may be gained by fulfilling the requirements defined under (a) Reading, above. The candidate will be required to submit a list of books read in preparation for the examination, certified by the principal of the school in which he was prepared; but this list will not be made the basis of detailed questions. **B**, A test on the books prescribed for study, which will consist of questions upon their content, form and structure and upon the meaning of such words, phrases and allusions as may be necessary to an understanding of the works and an appreciation of their salient qualities of style. General questions may also be asked concerning the lives of authors, their other works, and the periods of literary history to which they belong.

MATHEMATICS.**Mathematics A. Algebra to Quadratic Equations.**

The four fundamental operations for rational algebraic expression; factoring, determination of highest common factor and lowest common multiple by factoring; fractions, including complex fractions; ratio and porportion; linear equations, both numerical and literal, containing one or more unknown quantities; problems depending on linear equations; radicals, including the extraction of the square root of polynomials and numbers; exponents, including the fractional and negative. (One unit.)

Mathematics B. Quadratic Equations, progressions, and the Binomial Formula.

Quadratic equations, both numeral and literal; simple cases of equations with one or more unknown quantities, that can be solved by the method of linear or quadratic equations; problems depending upon quadratic equations; the binomial formula for positive integral exponents; the formulas for the n th term and the sum of the terms of arithmetic and geometric exponents, including the fractional and negative. (One-half unit or one unit.)

Mathematics C. Plane Geometry, With Original Exercises.

The usual theorems and constructions of good text-books, including the general properties of plane rectilinear figures; the circle and the measurements of angles; similar polygons; areas; regular polygons and the measurements of the circle. The solution of numerous original exercises, including loci problems. Application to the mensuration of lines and plane surfaces. (One unit.)

Mathematics D. Solid Geometry, with Original Exercises.

The usual theorems and constructions of good text-books, including the relations of planes and lines in space; the properties and measurements of prisms, pyramids, cylinders and cones; the sphere and the spherical triangle. The solution of numerous original exercises, including loci problems. Applications to the mensuration of surfaces and solids. (Half unit.)

Mathematics E. Plane Trigonometry.

Definitions and relations of the six trigonometric functions as ratio; circular measurement of angles; proofs of principal formulas; product formulas; trigonometric transformations. Solution of simple trigonometric equations. Theory and use of logarithms (without including infinite series.) Solution of right and oblique triangles with applications. (Half unit.)

Mathematics F. Mechanical Drawing.

Projections of cubes, prisms, and pyramids in simple positions; method of revolving the solid into new positions; method of changing the planes of projection; projections of the three round bodies in simple positions and in revolved positions; sections by planes parallel to the planes of projection. Sections by inclined planes; development of prisms, pyramids, cylinders, and cones; intersections of polyhedra and curved surfaces; distances from a point to a point or a plane or a line; angles between planes and lines. (Half unit.)

LATIN.**Latin A. Grammar, Composition, and Translation.**

The Roman pronunciation; observance of accent and quantity; thorough mastery of the regular forms; the leading uses of the cases, tenses and moods; accusative and infinitive, relative and conditional sentences, indirect discourse and the subjunctive; translation into Latin and into English of easy detached sentences illustrating grammatical principles. (One unit.)

Latin B. Grammar, Composition and Caesar's Gallic Wars, Books I-IV.

A reasonable acquaintance with the time and purpose of the author; ability to summarize the narrative as a whole; ready identification of the normal forms and construction. As much as one book of Caesar may be substituted by an equivalent amount of Viri Romae, or other Latin prose. In connection with all of the reading there must be constant practice in prose composition. (One unit.)

Latin C. Grammar, Composition, Cicero's Orations Against Catiline.

A reasonable acquaintance with the time and circumstances of the conspiracy of Catiline; intelligent appreciation of the

author's thought and purpose; ability to summarize the narrative as a whole; readiness in explaining normal forms and constructions. As much as two orations may be substituted by an equivalent amount of Nepos or other Latin prose. In connection with all the reading there must be constant practice in prose composition. (One unit.)

GREEK.

Greek A. Grammar, Composition, and Translation.

Careful pronunciation; mastery of the regular forms, simpler rules of syntax, both of the cases and of the verbs; translation into Greek and into English of easy detached sentences. (One unit.)

Greek B. Grammar, Composition and Xenophon's Anabasis, Books I-III.

A reasonable acquaintance with the time and purpose of the author; ready identification and comprehension of the normal forms and constructions. In connection with all the reading there must be constant practice in prose composition. (One unit.)

FRENCH.

French A.

One-half Elementary Grammar, and at least 175 pages of approved reading. (One unit.)

SPANISH.

Spanish A.

One-half Elementary Grammar, and at least 175 pages of approved reading. (One unit.)

GERMAN.

German A.

One-half Elementary Grammar and 75 to 100 pages of approved reading. (one unit.)

German B.

Elementary Grammar completed, and 150 to 200 pages of approved reading. (One unit.)

HISTORY.

Credit will be given in history rather for the amount of time devoted to the subject and on the basis of the thoroughness with which the subject has been taught than on the amount of ground covered. Thorough preparation on two periods is of far more value than shallow preparation on a larger field. The work of the Freshman year will presuppose recent study of Medieval and Modern History. The student should be trained in practice of collateral reading, and should be accustomed to take notes to some extent on simple talks to the class. Accurate geographical work connected with the text should have been done habitually.

Questions as to collateral reading, note-taking, and historical geography will be asked of all students who enter, whether by examination or by certificate.

Ancient History, Medieval and Modern History, English History, and American History and Government may be offered.

History A. Ancient History.

Including a brief outline of Eastern Nations; Grecian history with especial reference to culture; Roman history, with especial reference to its problems of government, and the rise of the Christian Church. (One unit.)

History B. Medieval and Modern European History.

Including the Carolingian empire and feudalism; the papacy and the beginnings of the new Germano-Roman empire; the formation of France; the East and the Crusades; Christian and feudal civilization; the era of the Renaissance; the Protestant Revolution and the religious wars; the ascendancy of France and the age of Louis XIV; the rise of Russia and Prussia, and colonial expansion; the French Revolution; Napoleon and the Napoleonic wars; the growth of nationality, democracy, and liberty in the Nineteenth Century; the events leading to the War of the Nations. (One unit.)

History C. English History.

Including the geography of England and the early Britain; Saxon England; Norman England; England under the Plantagenets; Tudor England; Puritans and Royalists; the constitutional monarchy; the Modern British empire. (One unit.)

History D. American History and Civil Government.

(1) In American History the work includes the period of discoveries, the Revolution, the Confederation, and the Constitution; Federalist supremacy to 1801; Jeffersonian Republicanism to 1817; economic and political reorganization to 1829; the National Democracy to 1844; slavery in the Territories to 1860; the War of Secession, Reconstruction, and the problems of peace to the present. (2) In Civil Government the work covers the early forms of Government, the Colonies and Colonial Government; Colonial Union and the Revolution; the Confederation and the Constitution; the Political Parties and Party Machinery; the existing Federal Government; the Foreign Relations of the United States. (One unit.)

SCIENCE.*Science A. Chemistry.**

The requirements in Chemistry include a knowledge of the more important non-metals and their principal combinations, about ten important metals and their principal salts, the more important topics of chemical philosophy, chemical nomenclature and notation, together with an elementary course in experimental chemistry. Every candidate must present as a part of the examination, a note-book, certified by the teacher, containing a description of his laboratory exercises, with a careful record of the steps, observations, and results of each exercise.

A course accomplishing the preparation above outlined will require an amount of time equivalent to three hours for one school year, exclusive of laboratory work. (One unit.)

Science B. Physics.

For entrance in this subject the student should have passed a satisfactory examination on some modern High School Physics, and present to the professor in charge his notes on laboratory work done, including not fewer than twenty-five exercises. This work should be the equivalent of five recitations per week for one year. (One unit.)

*Note—Two hours laboratory work equals one unit-hour of credit.

Science C. Botany.

The preparation in this subject should include a study of the following divisions: Anatomy and Morphology, Physiology, Ecology, the Natural History of the Plant Groups, and Classification. Much time should be given to laboratory work. The experiments with all records, should be kept in a permanent note-book, which must be presented at the entrance examination. (One unit.)

Science D. Zoology.

The preparation in this subject should include a careful study of the following divisions of the subject: General Life History and Economic Relations of the Animals of Mississippi, Classification into Phyla, with a discussion of the characteristics of each group or sub-group; general plan of structure of selected types of invertebrates and vertebrates; the general external features of the development of animals.

There should be presented at the time of entrance the laboratory note-book containing not fewer than twenty-five experiments made by the student. (One unit.)

Science E. Physiography.

Work done for entrance in this subject should cover the subjects presented in an approved text of Physiography or Physical Geography. The equivalent of two and one-half hours per week for one year is required. (One unit.)

Science F. Physiology.

Physiology and Hygiene. (One unit.)

Science G. Agriculture.

This course should cover an amount of work equivalent to Science F. (One unit.)

APPROVED HIGH SCHOOLS.

The following schools as at present organized are recognized as affiliated high schools so long as their efficiency is approved by the faculty of the college. Their graduates are admitted on certificate without examination. (As to character of certificate, see page 26.) The eighteen schools indicated with an asterisk have been accredited by the Association of Colleges of the Southern States.

ANNOUNCEMENTS

Millsaps College is named in honor of Major R. W. Millsaps, whose munificent gifts have made the existence of the institution possible. The College is the property of the Methodist Episcopal Church, South, and was organized by the concurrent action of the Mississippi and North Mississippi Conferences. It is not sectarian, however, but numbers among its patrons members of all the Christian denominations.

LOCATION.

Jackson, the capital of the State, and the seat of the College, is easily accessible by five lines of railway. Thirty passenger trains arrive and depart daily. The College is located in the northern part of the city, on a commanding elevation, with perfect drainage, and in a beautiful campus of one hundred or more acres. A healthier spot it would be difficult to find within the limits of the State. Jackson is a city of 30,000 inhabitants, with handsome churches and public buildings, and is noted for the refinement and intelligence of its people. Its literary, social and religious advantages are superior.

The College has an endowment of \$583,000, of which \$533,000 is productive, and several partially endowed scholarships. The first scholastic session began September 29, 1892, and the College has had remarkable prosperity from the beginning. The generous founder, Major Millsaps, by the gift of the Webster Science Hall, at a cost of \$10,000, the Jackson College property at a cost of more than \$30,000, and fifty acres of land immediately adjoining our campus, has greatly enlarged our facilities.

THE JAMES OBSERVATORY.

Millsaps College is prepared to offer excellent advantages in the study of astronomy. The late Mr. Dan A. James, of Yazoo City, Mississippi, built an observatory for the College in memory of his father, Mr. Peter James, and of his brother, Mr. Samuel James. He also furnished the observatory with a fine telescope. The observatory building and equipment has been renovated, and is in excellent order. The class of 1916 donated a fine photographic lens to the observatory, which adds materially to its equipment.

CARNEGIE MILLSAPS LIBRARY.

Near the close of the session of 1905-1906, Mr. Andrew Carnegie offered to give \$15,000 for a library building if the trustees would supply an endowment of equal amount. Major Millsaps added to his many contributions by giving the full amount of the endowment. With the income from this endowment and the complete A. L. A. card catalogue, the College is able to offer library facilities that are not surpassed in the State. During the present session fifty periodicals were received in the reading room and two hundred volumes were added to the shelves.

In addition to the books thus obtained, the library has been so fortunate as to secure most of the well selected libraries of the late Dr. C. K. Marshall, John W. Burruss and Rev. W. G. Millsaps, the entire library of Colonel W. L. Nugent, besides many volumes from the libraries of ex-Chancellor Edward Mayes, Dr. A. F. Watkins and Major R. W. Millsaps. Dr. J. M. Burton, late Professor of Romance Languages, who died in France in the service of his country on October 5, 1918, generously left to the College his entire Romance Library. This has been appropriately labeled and shelved, and constitutes a valuable addition to the books on Romance languages. The Martha A. Turner Fund, founded by Mrs. J. R. Bingham, of Carrollton, Mississippi, is used for the purchase of books in English literature. Through the generosity of Hon. W. S. F. Tatum a fine collection of books is being built up for the use of the Department of Religious Education. More than one hundred volumes have been added by him for each of the past two years. The students also have access to the State Library and the Jackson Public Library, which are unusually complete in many departments.

RELIGIOUS INSTRUCTION.

Students will be required to be present at morning worship in the College Chapel. In this daily service the Faculty and students come together to hear the reading of the Bible and to engage in singing and prayer. Students must attend religious worship at least once on Sunday in one of the churches of Jackson.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION.

One of the most potent factors in the College for developing the students into a broader life is the Young Men's Christian Association. Its policy and aim is to develop the three-fold nature of the students—the moral, intellectual, and spiritual. It is a well known fact that a student who develops himself intellectually, but neglects his spiritual nature, is in no sense a complete man. Unless one becomes a well-rounded man, he is not fit to fight the battles of life.

Realizing this, the Association was organized shortly after the College was founded. It has done as much to mold character and to hold up a high standard of ideals before the students as any other department in connection with the College. It has been dominated by the double purpose of leading men to accept Christ and to form such associations as will guard them against the temptations of college life. The Association has done much to strengthen the spiritual life and influence of the College, to promote Christian character and fellowship and progressive Christian work. It trains its members for Christian service and leads them to devote their lives to the cause of Christ where they can accomplish the most for the extension of the Kingdom of God. In order to accomplish this purpose the Association holds weekly meetings on Friday evenings. These services are usually conducted by some of the students, but occasionally by some members of the Faculty, or by some minister from town.

Realizing the importance of a young man's choosing his life work while in college, a series of addresses, on "Life Work," has been arranged and prominent men of each profession are invited to address the Association from time to time on their respective professions.

An annual revival is held some time in the year, lasting more than a week, which results in leading many young men to Christ each year. These services this year were conducted by Rev. J. V. Bennett, Mississippi Conference Evangelist, and resulted in renewing enthusiasm and in giving great stimulus to Association work.

The Association sends yearly a delegation to the Southern Students' Conference at Blue Ridge, North Carolina. Since the ten days of the Convention are assiduously devoted to discussing Association work and problems, the delegates always return enthusiastic and zealous for doing Christian service.

The work of the Association is carried on by the students; each man has his part to do according to the plan of organization. The President, elected by the members, appoints chairmen of nine committees, each composed of three or more men. It is the duty of the Publicity Committee to advertise, by means of blotters and in other ways, all meetings, and secure good attendance. The Membership Committee meets all new students as they arrive, and gives them any information desired concerning College, boarding facilities, etc. Afterward this committee calls on each student and urges him to become a member of the Association. The Reception Committee has charge of College Night, and any other entertainment that the Association may choose to give during the year. The object of College Night is to make the students acquainted with one another and to interest the new men in the different phases of College life. The Employment Committee assists deserving students in getting employment for their spare time. The City Mission Committee has charge of work in different parts of the city. The Devotional Committee provides leaders, and the Music Committee, whose Chairman is the Treasurer of the Association, collects the annual dues (\$1.25) and raises funds sufficient for meeting current expenses.

But most important are the Bible Study and Mission Study Committees. Bible study groups are formed at the Dormitory and at the boarding houses. The students engage in daily Bible reading and meet for one hour each week, for discussion. The Mission Study Committee arranges courses in biographies of missionaries in various mission fields and secures leaders for the various classes. A student Volunteer Band is organized and active in preparation for mission work. Delegates are sent each year to the Volunteer Convention and the College is now represented in the foreign field by a number of efficient missionaries.

The Y. M. C. A. is back of every phase of College life, and it is expected that every student will identify himself with the organization.

LITERARY SOCIETIES.

Two large halls have been provided for the Literary Societies organized for the purpose of improvement in debate, declamation, composition, and acquaintance with the methods of deliberative bodies. These societies are conducted by the students under constitutions and by-laws of their own framing. They are named, respectively, the Galloway and the Lamar Societies, and contribute greatly to the improvement of their members.

BOARDING FACILITIES.

Students of Millsaps College, as a rule, arrange for their living in one of two ways:

1. There are eight small cottages, in which students can board themselves at reduced cost. These cottages are admirably situated on the eastern side of the campus. The rooms are sufficiently large to accommodate two students each. The room rental per student in the cottages is \$20.00 for the session and must be paid as follows: \$10.00 on entrance, and \$10.00 on February 1st. The boys in these cottages may take their meals in the college dormitory, or, if they prefer, may organize a cooperative club. Lights amount to very little. Students living in the cottages furnish their rooms. Students wishing to engage a room in one of the cottages should write Rev. M. M. Black, at the College.

2. In the new dormitory the expense is \$25.00 or \$26.00 per month including room, lights, steam heat, board, matron's services, and hospital facilities. Students may room in the cottages and take their meals at the college dormitory. There are Christian homes where students may get rooms without board. In such cases the students may get meals at the college dormitory or at private homes.

THE NEW DORMITORIES.

Two of the new dormitories have been completed. Thus provision is made for the accommodation of students in buildings entirely new, and provided with every convenience. The buildings are steam-heated, and are provided with shower baths. Every room is an outside room, and is well lighted.

The great dining room is unusually fine, and is separated from the large kitchens by a commodious serving room. A feature which will be greatly appreciated by the students is a large common room where the boys may gather for a social hour.

Millsaps now is able to offer dormitories equal in all their appointments to the best to be found in any institution in this section. The work on a third dormitory will be pushed to completion as soon as possible.

Two students will be expected to occupy a room. The charge per month for each student will be \$5.00 or \$6.00, according to the location of the room.

No change of rooms will be allowed except by permission of the President.

Early reservation should be made if a student wishes to be assured of a room. A deposit of \$5.00 must accompany a request for a reservation. In the back of this Register is a slip which should be filled out and mailed as indicated.

MEMORIAL COTTAGES.

The friends of the late Rev. John A. Ellis, of the Mississippi Conference, and the Rev. J. H. Brooks, of North Mississippi Conference, have built two cottages for the accommodation of students. These Homes are named, respectively, the John A. Ellis and the J. H. Brooks Cottage.

ATHLETICS.

Millsaps College is a member of the Southern Intercollegiate Athletic Association, and takes part in all intercollegiate games. Games and sports of all kinds are under the special direction of the General Athletic Association, a student organization, whose object is to promote this class of physical exercise. The faculty exercises a general advisory control, endeavoring to foresee and avert dangerous tendencies or excess in physical exercises while giving to the student, as far as possible, entire liberty of management; a strict limit is placed upon the character of the intercollegiate games and the number played away from the College.

The Athletic Director has supervision of all intercollegiate teams and conducts mass games and interclass leagues that enlist a large percentage of the students in some form of active participation in athletics. For those who report regularly two hours a week for exercise, under the instruction of the Athletic Director, a scholastic credit of one session-hour is granted.

MATRICULATION.

Courses of study are offered in two schools, the College and the School of Graduate Studies. The various departments are under the direction of professors who are responsible for the systems and methods pursued.

The session begins on the third Wednesday of September and continues, with recess of about ten days at Christmas, until the first Tuesday in June. The first two days of the session are given to registration, and all students, both old and new, are required during that time to place their names upon the books of the College and the rolls of their respective classes. Lecture courses begin Friday, and absences will be recorded against any student not present from the opening lecture of each course.

EXAMINATIONS.

The examinations in each class are held in writing. Oral examinations are held in some departments, but they are auxiliary to the written examinations, which in conjunction with the class standing as determined by the daily work of the student, are the main tests of the student's proficiency.

REPORTS.

Reports are sent at the close of each six weeks to the parent or guardian of each student. These reports give the number of unexcused absences from lectures, and indicate, as nearly as practicable, the nature of the progress made by him in his work at the College.

HONOR SYSTEM.

Not the least of the educational influences of the College is the honor system. According to this system the student is not watched by the members of the Faculty during examinations, but is required to pledge his honor that he has neither received nor given any aid during the period of examination. If a student is accused of cheating, he is given a full and fair trial by the

Honor Council, which is composed of seven students selected by the students. Experience has shown that under this system not only has cheating been lessened, but that a spirit of honor and truth has been fostered which tends to include not only the examination tests, but all relations between student and professor.

REGISTRATION OF NEW STUDENTS.

Applicants seeking admission to the College for the first time should present themselves to the Registrar of the College at his office in the main building at some time during the first two days of the session. In each instance a certificate of good moral character must be presented, signed by the proper official of the institution attended during the previous session, or by some person of known standing. Each candidate who satisfies these requirements and those for admissions by certificate or examination, previously stated, will be furnished with a card containing the courses which he proposes to pursue during the session. The card must then be carried to the Treasurer, who will, after the College fees have been paid to him, sign that card. On payment of these fees the applicant will be admitted to classes.

FEES.

No student will be admitted into any department of the College except upon presentation to the professor of the department of the Treasurer's receipt for all entrance and tuition fees. In no case are entrance laboratory fees returned.

TUITION.

Tuition fees will be charged by the half-year and must be paid not later than the second week of each period. No tuition fee will be returned unless a student is disqualified for work by severe illness for more than two months.

BOARD.

Board is payable by the scholastic month (28 days) strictly in advance. When a student has paid his board a meal ticket will be issued to him by the Treasurer, which will be good until the next payment falls due. Payments for board will not be returned except for absence of not less than two weeks. Charges for board do not include the Christmas holidays, during which period meals will not be served in the dining hall.

Students will not be admitted to the dining hall without meal tickets after the Monday following the opening of the session.

No student shall be considered by the faculty as an applicant for graduation until he shall have settled with the Treasurer all his indebtedness to the College.

Students who have already been matriculated as members of the College will present themselves directly to the members of the Faculty not later than the second day of the session and conform as regards the registration in their respective classes and payment of dues, to the requirements stated in the preceding paragraph.

DELAYED REGISTRATION.

Students are not permitted to delay their registration through carelessness or for inadequate reasons. Any student, new or old, who fails to present himself for registration during the first week of the session will be admitted to registration only upon the consent of the President.

RESIDENCE, ATTENDANCE AND GRADE.

The Academic year begins on the morning of the third Wednesday of September and continues for thirty-seven weeks. Thanksgiving Day is a holiday, and there is a Christmas recess beginning on the evening of the twenty-first of December and continuing about ten days.

Attendance is required of each student throughout the entire session, with the exception of the days above indicated, unless he has received permission to be temporarily absent or to withdraw before its close. Leave of absence is granted by the Faculty or President for sufficient reasons, and must in every case be obtained in advance. While in residence each student is required to attend regularly all lectures and other prescribed exercises and all examinations in the courses which he pursues, (unless excused for cause), and in every way to conform to the regulations of the College.

Absence from the College is permitted only upon the written leave of the President, obtained in every case in advance. But leave of absence for purposes of accompanying the athletic teams, debating teams and all other recognized clubs will not be granted except to officers and members of the organization.

Absences of athletic teams and other student organizations is provided for by Faculty regulations.

Absence from any classes is not excused except for prolonged sickness or like providential cause, and then only by Faculty action.

Absence from examinations will not be excused except for sickness on day of examination, attested by a physician's certificate, or other cause which the Faculty by special order may approve. An unexcused absence or presentation of an unpledged paper is counted as a total failure in the examination in which it occurs. A student whose absence from examination is excused is admitted to the special examination ordered by the Faculty.

Change of Classes.

Students cannot change classes or drop classes or take up new classes except by the consent of the Faculty.

The grade of the student in any class, either for a term or for the session is determined by the combined class standing and the result of examination. In case the examination grade falls below 60 per cent. the class standing is not averaged.

Class standing in any course is determined by the regularity of attendance of the student upon the lectures (and laboratory or other similar exercises where included) in the course in question, and by the faithful performance of his work as indicated by the answers when questioned, by written exercises, note books, the faithful performance of laboratory (or other similar) work, etc. Students are regarded by the faculty as under the law of honor in matters affecting class standing or in examinations. The grade for passing in any course is 70 per cent.

Re-examination.

A student who attains in any course an examination grade for the term not below 50 per cent, and whose average is below 70 per cent, is admitted by the Faculty to a special examination at a time set by the Faculty.

Withdrawals.

Voluntary withdrawals from the College require the written consent of the Faculty or President.

Enforced withdrawal is inflicted by the Faculty for habitual delinquency in class, habitual idleness or any other fault which prevents the student from fulfilling the purpose for which he should have come to the College.

CONDUCT.

The rules of the College require from every student decorous, sober and upright conduct as long as he remains a member of the College, whether he be within the precincts or not. They require from the student regular and diligent application to his studies, and regular attendance upon chapel and Sunday services at one of the churches.

Drunkenness, gambling and dissoluteness are strictly forbidden, and any student found guilty of them is punished by suspension or expulsion.

Firearms.

The keeping of firearms by the students is strictly forbidden.

Visiting the City at Night.

Students are forbidden to visit the town, or other place away from the College, at night, without permission from the President.

EXPENSES.

Parents desiring to settle all College bills, such as board, etc., through the Treasurer may do so by simply sending check to Rev. M. M. Black, Treasurer, and specifying what the enclosure is intended to cover.

***FEES AND EXPENSES.**

For a complete statement of fees and expenses see next page.

The cost of living is fully explained under "Boarding Facilities," page 50. A temporary increase in board has been made to meet the present conditions.

Each student should bring with him four sheets for a double bed, blankets, or quilts, a pillow with cases, and six towels.

Free tuition.

Children of itinerant preachers of the Methodist Episcopal Church, South, or of superannuated or active ministers of any

*Students remaining in the College during the summer months for special work in the Summer School will be expected to pay the regular room rents, provided they room in the College buildings.

Christian denomination, and young men preparing for the ministry may receive tuition free in the academic department, but are expected to pay all other fees. Any student, wishing exemption from the payment of the tuition fee upon this ground, will be required to present a certificate from the Quarterly Conference or some other ecclesiastical body showing that he is recognized by his Church as a student preparing for the ministry.

(1) College Fees.

Academic and Graduate School (required from all students):

Tuition (one-half to be paid on entrance and one-half on Feb. 1st)	\$75.00
Incidental Fee to be paid on entrance.....	10.00
Library fee	1.00
Contingent Deposit (unused part to be refunded)	2.00
Medical fee	5.00
Rooms rented by the half session only. No refund except for illness of more than a half term.	
*Student Activities fee	12.00

(2) Laboratory Fees.

Students pursuing Laboratory Courses are charged additional fees, varying with the department, as follows:

Chemistry	\$6.00
Physics	5.00
Geology	2.00
Biology	3.00
Astronomy	2.00
Laboratory Breakage Deposit (unused part returned).....	2.00

(3) Cost of Living—Dormitories.

Room rent (including heat and lights, one-half to be paid on entrance and one-half February 1st).....	\$45.00 to \$54.00
Board (by month, in advance)	20.00
Dormitory contingent deposit	3.00

*This fee covers the fees for Athletics, \$1.00 deposit on Annual, Literary Societies, Y. M. C. A., and subscription to The Purple and White (weekly paper). It is payable in two installments—\$6.00 on entrance, and \$6.00 on February 1st.

FELLOWSHIPS, SCHOLARSHIPS, PRIZES, AND GIFTS.

All holders of scholarships will be required to pay the Incidental, and Library Fees.

Several scholarships have been established, the income from which will be loaned to aid deserving young men in securing a collegiate education. For information concerning these scholarships the President or the Treasurer of the Faculty should be consulted. The following is a list of the scholarships at present available:

THE W. H. TRIBBETT SCHOLARSHIP.

THE CLARA CHRISMAN SCHOLARSHIP.

THE JEFFERSON DAVIS SCHOLARSHIP.

THE PEEBLES SCHOLARSHIP.

THE W. H. WATKINS SCHOLARSHIP.

THE MARVIN GALLOWAY SCHOLARSHIP.

THE J. A. MOORE SCHOLARSHIP.

*THE W. T. J. SULLIVAN MEMORIAL LOAN FUND.

Besides these scholarships, there is a teaching scholarship in each of several departments, the holder of which will be expected to aid the head of the department in some definite work. Also there are two scholarships from the Jackson High School and one each offered by the United Daughters of the Confederacy and the Daughters of the American Revolution.

The Oakley Memorial.

Under the direction of Mrs. J. R. Bingham, of Carrollton, Mississippi, a fund has been raised to establish a memorial in honor of the late Rev. J. S. Oakley, who was for many years an honored member of the North Mississippi Conference.

Teaching Fellowship.

I. This Fellowship is to be awarded at the end of each session to the member of the Sophomore, Junior or Senior class, who shall have made the highest general average for the year, subject to the following conditions:

*Administered by Dr. J. M. Sullivan.

(a) He must be a regular student, with not less than sixteen hours per week, and must have made at least 75 in each of the subjects studied.

(b) He must have been an active member of the College Young Men's Christian Association, and of one of the College Literary societies, and an active participant in at least one form of athletic activity in the College Athletic Association.

(c) He must agree to teach not exceeding three classes (nine hours) per week, his work being assigned by the President of the College.

II. The student to whom the Fellowship is awarded shall receive Two Hundred Dollars (\$200.00), due and payable one-half at the beginning of the session, and one-half on February 1st.

PRIZES.

Prizes are awarded for excellence in:

I. Scholarship.

1. The Founder's Medal.
2. The Bourgeois Medal.
3. The Gieger Medal.

II. Oratory.

1. The John C. Carter Medal.

III. Essay Writing.

1. The Clark Medal.
2. The D. A. R. Medal.

IV. Declamation.

The Buie Medal.

Conditions of the Awarding of Medals.

1. The Founder's Medal is to be awarded annually to the member of the Senior Class who has made the highest average throughout the four years of the College course.

2. The Bourgeois Medal is awarded annually to the member of the Freshman, Sophomore, or Junior Class who has made the highest record for the year. Such students must have satisfied all entrance conditions, must be a candidate for a degree, and must have taken a minimum of fifteen hours of College work during the year in which the medal is awarded to him. No student who has won this medal can compete for it again.

3. The Gieger Medal is awarded annually to the member of the Sophomore Class in Chemistry who has made the highest record for the year.

4. The John C. Carter Medal for Oratory is awarded annually, and is limited to members of the Senior Class in the Academic Department.

5. The Clark Medal is awarded annually for the best essay presented by any College student; but no student can successfully compete for this medal more than one time.

6. The D. A. R. Medal, established and maintained by the Ralph Humphreys Chapter of the Daughters of the American Revolution, is awarded annually to a member of the class in American History who shall have written the best essay on some patriotic subject, the subject being chosen by the professor of history.

7. The Buie Medal for Declamation is open to members of the Freshman and Sophomore Classes; but cannot be taken by any student more than one time.

MEDALS AWARDED AT THE COMMENCEMENT OF 1922.

The Founder's Medal	Frederick J. Lotterhos
The Bourgeois Medal	Mary Davenport
The John C. Carter Medal	Warren N. Ware
The Buie Medal	C. H. Carr
The Clark Essay Medal	Horace L. Villee
The Gieger Chemistry Medal	O. B. Triplett
The D. A. R. History Medal	Isabel Johnston

THE TEACHING FELLOWSHIP.

Awarded to Horace L. Villee.

Leigh Watkins.

Laboratory Assistants in Chemistry.

Ross H. Moore,
Simmons L. Donald.

The Academic Schools comprise the Departments of Languages, Mathematics, Science, History, Social Science, Literature, Philosophy, Education and Biblical Instruction. In the undergraduate courses of these departments is comprised the work of the College with the degrees of Bachelor of Arts and Bachelor of Science; in the graduate courses is comprised the work of Graduate Studies, with the degree of Master of Arts and Master of Science.

B.A. Degree.

The Bachelor of Arts Course offers special instruction in the department of Latin and Greek. This course presupposes two years of preparatory work in Greek or Modern Languages and three in Latin. In order to be allowed to enter upon the B.A. Course, the applicant must stand an approved examination in English, History, Science, Mathematics, Latin and Greek, or Modern Languages.

B.S. Degree.

The Bachelor of Science Course offers special work in Chemistry, Physics and Mathematics. Instead of Greek and partly of Latin, French, Spanish, and German are studied. In order to be allowed to enter upon the B.S. Course, the applicant must stand an approved examination in English, History, Science, Mathematics, Latin and Modern Languages.

M.A. and M.S. Degrees.

The degrees of M.A. and M.S. may be conferred upon graduates who hold the B.A. or B.S. degree from Millsaps College, or from some other institution of equal rank. For the at-

tainment of either degree one year of residence at Millsaps College is required after the attainment of the Bachelor's degree, and also satisfactory completion of advanced work to the amount of fifteen hours. This work must be taken in not more than three different subjects; a major subject, in which a minimum of six hours credit must be earned; and one or two minor subjects to the amount of six hours credit.

All the work of the major subject must be of an advanced character, to which undergraduates are not admitted. The minor subject or subjects may be pursued in senior college courses. No grade less than 80% shall be credited towards the requirements for the Master's degree in any subject. In addition to the twelve hours required as above stated, a thesis dealing with some phase of the major subject must be submitted by the candidate six weeks before his graduation, and approved by a committee of the Faculty. In time requirements this shall be considered equivalent to three hours of work.

A full outline of the required and the elective studies offered for the degrees of Bachelor of Arts and Bachelor of Science is given in the pages following this announcement.

Sixty-four year-hours are required for graduation both for the B.A. and B.S. degrees. Specific courses are prescribed in the Freshman and the Sophomore classes, including alternative courses offered in ancient and modern languages. Courses in the Junior and Senior classes are partially prescribed and partially elective, from eight to twelve hours of electives being offered in those classes.

The normal course is 16 hours for each year. Not fewer than 12 hours nor more than 19 hours may be taken in a year, unless by express permission of the President and Faculty.

A student who makes a grade of 70% in a subject will be advanced in that subject from class to class, but for graduation a total of 27 grade points is required. The completion of any college course with a grade of 80% for the year shall entitle a student to one grade point for each year-hour, and the completion of a course with a grade of 90% for the year shall entitle a student to two grade points for each year-hour.

A student who has earned 64 grade points during his course shall be graduated with "honors"; one who has earned 128 grade points shall be graduated with "high honors."

†First and Second Terms

(Note)—1 year-hour=3 term-hours.

to satisfy the entrance requirements in foreign languages.

- 1 a, b, c. Xenophon's *Anabasis*, Books II-IV; selections from the *Cyropaedia*.

Review of verb inflection and systematic study of syntax.

Exercises in sight translation and in reading without translations. The writing of simple prose.

Constant effort is made to form proper habits of study in translation, without which no great progress can be made in ability to read.

- 2 a, b, c. Select Orations of Lysias. Plato's *Apology* and *Crito*. Demosthenes' *Phillipics*. History of Greek Literature. Prose Composition based on the text read.

- 3 a, b, c. Thucydides, Book VIII; Herodotus, Book VI and VII. Selections from the New Testament.

- 4 a, b, c. Sophocles' *Electra* or *Antigone* Aeschylus' *Agamemnon*. Aristophanes' *The Clouds* and *Plutus*. Study of the development of the Greek Drama.

II. THE DEPARTMENT OF CHEMISTRY.

PROFESSOR SULLIVAN.

ASSISTANT PROFESSOR PATCH.

MR. MOORE.

MR. DONALD.

The rooms which are given up to the study of this subject are modern, both in size and convenience, and occupy the whole lower floor of Webster Science Hall.

The work in this department includes one year of Chemistry required of candidates for both the B. A. and the B. S. degrees, and an additional year required of B. S. students, besides other courses open to all Juniors and Seniors.

The subjects are taught by recitations and lectures and work which each student must perform in the laboratory. The laboratories are kept well equipped with apparatus necessary to the correct appreciation of the science. Each student has his own desk and apparatus, and is closely supervised, so that he may not only gain a true idea of the substance under inspection, but also train his hand to be careful to the smallest detail, and the eye observant to the slightest phenomenon, and habits of neatness, skill and economy. Each student will be expected to keep accurate notes.

Entrance credits for at least one unit in Natural Science is required for admission to this department, and applicants should have completed an elementary course in Chemistry.

1. Inorganic Chemistry.

- (a) The first term will be devoted to a careful study of fundamental principles and laws, the occurrence, properties, preparation and uses of a number of the common elements and compounds, and chemical calculations.
- (b) During the second term the study of non-metals will be completed and a few weeks devoted to the alkali and alkali-earth metals. Special attention will be given to valence and the ionization theory.
- (c) The work of the third term will include a study of metals with special reference to commercial uses and to qualitative analysis, and an elementary course in Organic Chemistry.

This course is designed to give the student a thorough working knowledge of general chemistry, and is a prescribed study of the Sophomore year for all degrees, and is a prerequisite to either of the other courses in chemistry.

Lectures and recitations, three hours. (Monday, Wednesday and Friday, 11-12.)

Text Book—General Chemistry (McPherson and Henderson).
American Chemistry (Hale).

Reference Books—Simon, Holleman, Smith, Holmes, Bloxam, McCoy, Mellor.

1. Experimental Chemistry.

This course is given in connection with the lectures, and each student is assigned the preparation of a number of elements and compounds, and required to note the deportment of various substances with reagents. The class each year is given an opportunity to visit certain industrial establishments, as sulphuric acid plant, phosphate works, gas works, and water filtration plant. Two hours. (Monday or Tuesday 2-4.)

Text Book—Laboratory Manual (McPherson and Henderson).

2. Organic Chemistry.

- a. The first term's work will include a study of the open-chain compounds, and methods of organic analyses and determination of formula.

- b. During the second term special attention will be given to the amines, cyanogen compounds, polyhydric alcohols, carbohydrates and other derivatives. The study of relationships as shown by rational formula will be emphasized.
- c. The cyclic compounds will be studied during the third term. The purpose of this course is to furnish a somewhat comprehensive knowledge of the carbon compounds, the instruction being given chiefly by lectures illustrated by experiments.

Some attention is given to physiological chemistry. Students will be expected to consult various works of reference. This course is required of applicants for the B. S. degree, and, in connection with 3 and 4, will appeal specially to preliminary dental and medical students. Prerequisite: Chemistry I.

Lectures and recitations two hours. (Monday and Wednesday 12-1.)

Text-Book—Organic Chemistry. (Perkin and Kipping)

Reference Books—Norris, Bernthsen, Holleman, Cohen, and Richter.

3. Qualitative Analysis.

This course consists in a systematic analysis of simple and compound substances and mixtures with the separation and identification of the metals and acid radicals in a set of unknowns, including some minerals. It is a prescribed study in the Junior year, and required for the B. S. degree but may be elected by students who have had Chemistry. 2. The work is not confined to mere test-tube exercises, but will include a consideration of the application of the ionization theory to qualitative analysis. The latter part of the course will embrace some work in volumetric analysis. Two hours. (Wednesday or Thursday, 2-4.)

Text-Book—Qualitative Analysis. (Baskerville and Curtman.)

Reference Books—Newth, Fresenius, Steiglitz, Perkin.

4. Experimental Organic Chemistry.

This course is planned especially to meet the needs of pre-medical students, but is open to all who enter course 2, or its equivalent. It will include exercises in purification, analysis, and synthesis of certain carbon compounds, the

determination of melting and boiling points, vapor density, and molecular weights, the preparation of some coal-tar products, and a few experiments in urine and food analysis. Three terms.

Four hours. (Friday, 12-1 and 2-5.)

Text-Books—Steel, West, Gattermann.

5. General Chemistry.

Advanced Course—This course is intended to supplement course 2. Some phase of advanced chemistry—theoretical, industrial, or physical, will be taught. A brief study of historical chemistry and chemical calculations will be included. The course will be varied from time to time, as may be needed. Three terms.

Lectures and recitations one or two hours. (Friday, 12-1.)

Text and Reference Books—Inorganic Chemistry (Holland, Smith, Mellor), Physical Chemistry (Jones, Walker), History of Chemistry (Moore, Venable.) Industrial Chemistry, (Thorp).

6. Quantitative Analysis.

A course in gravimetric and volumetric analysis. Three terms. (Friday, 2-4).

Text-Books—Clowes and Coleman, Griffin, Newth.

Reference Books—Fresenius, Sutton, Smith.

7. Commercial Analysis.

This course will include the analysis of minerals, foods, waters, coal, and other industrial products, with the preparation of a few drugs and coal-tar dyes. A portion of this course may be included in the third term of course 6.

Finally, it should be said that in the chemical laboratory text-books will be dispensed with as far as possible. The student will be taught to feel that the substances and apparatus around him are his alphabet. The teacher is constantly on hand to question and suggest; and in other ways to stimulate thoughtfulness.

Library copies of Watt's Revised Dictionary, Thorp's Applied Chemistry, Roscoe and Schorlemmer's Treatise, Allen's Commercial Organic Analysis, Journals of the American Chemical Society, and other works, are on hand for reference. In both Junior and Senior courses some library work will be required outside the regular schedule.

A gold medal is offered by Mr. Marvin Gieger for general excellence in scholarship in Chemistry during the Sophomore year.

Master's Degree.

In the post-graduate work in this department, 200 hours of laboratory work in the subject are required.

Courses are offered as follows: (a) The Analysis of Potable and Mineral Waters, and such mineral products as Iron Ores, Gypsum, Phosphate, Marl, Fire Clay, and Limestone. (b) An advanced course in accurate Quantitative Analysis, and molecular weight determinations. (c) A course in the preparation and analysis of Organic Substances, including food analysis and cotton seed products. (d) A course in Theoretical, Physiological and Historical Chemistry.

Text-Books—Examination of Water (Leffmann, Mason); Quantitative Analysis (Clowes and Coleman); Organic Preparation (Gattermann); Food Inspection (Leach, Wiley).

Reading Course.

Theoretical Chemistry (Arrhenius); Physical Chemistry (Walker, Jones); Industrial Chemistry (Rogers, Molinari) Development of Organic Chemistry (Schorlemmer); History of Chemistry (Moore); Physiological Chemistry (Halliburton); Sources and Modes of Infection (Chapin); Technical Methods (Griffin).

In addition a satisfactory examination must be passed on work assigned.

The courses outlined are for major subjects, and for minors each will be reduced one-half.

III. THE DEPARTMENT OF EDUCATION.

PROFESSOR NOBLE.

The courses here offered are for the special benefit of students preparing for the profession of teaching, and have been approved by the State Board of Examiners of Mississippi. Candidates for the bachelor's degree who present nine hours of work selected from this department as a part of the requirement for graduation, will be given, in addition to the diploma, a certificate which will entitle them to Professional License without examination in this State. The courses are open to Sophomores, Juniors, and Seniors, and to Freshmen who secure special permission of the Faculty.

Before registering for courses, students should consult with the head of the department and indicate whether they are preparing to become teachers of special subjects, principals, or superintendents. The courses selected should be in line with the work which the prospective teacher expects to pursue after leaving college.

1. (a) Introduction to the Scientific Study of Education.

An informational course designed to establish in the minds of students, whether prospective teachers or not, the attitude of the public-spirited citizen toward the recent developments in the field of education. Three hours, first term.

(b) Training Pupils for Citizenship.

In this course it is proposed to train teachers to establish in the minds of children the ideals of democracy and the conception of the duties of citizenship. The formation of socially valuable habits, the civic value of the several subjects, and the participation of children in civic activities, are topics that will receive attention. Three hours, second term.

(c) Health and Physical Welfare of School Children.

Sanitation and hygiene in the school, medical examination of school children, physical training and allied problems will be studied and discussed. Three hours, third term.

2. (a) Elements of Psychology.

A brief but comparative survey of Psychology from the point of view of human behavior. This course is required of all students who expect to receive Professional License. Readings, lectures, and reports. Three hours, first term.

(b). Educational Psychology.

A study of mental development and the psychological basis of educational theory and practice. Experimental work along statistical lines will form a part of the course. Lectures, discussions, and reports. Three hours, second term.

(c) Educational Psychology, Experimental Course.

Experiments involving the use of the statistical method in investigating school practices. Lectures, reading and practical investigations. Three hours, third term.

3. (a) History of Education in Ancient Times.

This course will cover the history of education of ancient Greece and Rome and in early Christian times. Principles will

be studied in the light of modern theory and practice. Source materials will be studied collateral with the text. Recitations, lectures, and reports on parallel readings. Three hours, first term.

(b) History of Education in Medieval and Modern Times.

A continuation of the preceding course covering the medieval period, the period of the Renaissance, the period of Naturalism and the modern period. Three hours, second term.

(c) The History of Education in the Southern States.

This course will trace the development of public education in the Southern States. Some attention will be given to the handling of source materials relating to the educational history of Mississippi. Source materials of our own collection and those of the State Department of Archives and History will be examined. Three hours, third term.

4. (a) Problems of School Administration.

A practical course in which the Mississippi school system is compared with neighboring systems. Topics which will receive particular emphasis are: Consolidation; maintenance and support of schools; lighting, heating and ventilation; the county unit of organization; the school as a social center; adaptation of the school to local needs. Investigations, reports, discussions. Three hours, first term.

(b) Principles of Secondary Education.

The aims and functions of secondary education; the nature of the high school population; the articulation of the high school with the elementary school and the college; application of principles to the situation in Mississippi. Three hours, second term.

(c) Principles of Secondary Education.

A continuation of the preceding course dealing chiefly with the program of studies in the high school and the organization and administration of the secondary school. Three hours, third term.

IV. THE DEPARTMENT OF ENGLISH.

PROFESSOR WHITE.

MR. VILLEE.

MR. WATKINS.

1. Composition.

a. The first term is devoted to a thorough review of

grammar, punctuation, sentence structure, and diction. Weekly expository themes are required.

b. During the second term the student will study letters, essays, and stories of Robert Louis Stevenson. Two long themes are required of each student.

c. During the third term the student will give his attention to the theory and practice of description, narration, and exposition. Weekly themes are required.

Text-Books—Royster and Thompson, Guide to Composition.

Practice sheets for English composition; McCracken and Sandison, Manual of Good English; Selections from Stevenson, edited by Canby and Pierce. Parallel reading: The student must report on six units of parallel reading to be selected from restricted lists of novels, dramas, essays, biographies, etc. About three hundred pages constitutes a unit. Not more than two units are allowed from any list. Required of all Freshmen. Three hours.

2. English Literature.

a. This course treats of the beginnings of English literature, and of its history through the Elizabethan age. Study is given to types and periods, as well as to individual authors. Selections from representative literature are assigned for study. Three hours during the first term.

b. This course treats of the history and development of English literature from the age of Elizabeth to the Triumph of Romanticism. Three hours during the second term.

c. The study of English literary history from the Romantic age to the present day. Three hours during the third term.

Text-Books—Moody and Lovett, History of English Literature; Century Readings in English Literature, edited by Cunliffe, Pyre, and Young.

Twelve novels and dramas are assigned as parallel reading. Required of all Sophomores. Three hours.

3. Shakespeare.

a. An intensive study of Macbeth and Hamlet. Lectures on the plays. Careful attention to Shakespearean diction and construction. Three hours during the first term.

b. During this term Henry IV, part I. and King Lear will be studied. Three hours during the second term.

c. The study of this term will be given to Othello and the Winters' Tale. Three hours during the third term.

Text-Books—The Rolfe edition of the plays. Parallel reading: The other dramas of Shakespeare; Dowden, Shakespeare Primer; Sidney Lee, Shakespeare's Life and Works. Elective for all students. Three hours.

4. **The Poetry of the Nineteenth Century.**

a. During the first term careful study is given to the Romantic poets. Many of the poems of Wordsworth, Coleridge, Scott, Byron, Shelley, and Keats are read. The historic background is presented in lectures.

b. During the second term the poetry of Tennyson is studied.

c. The work of the third term will be devoted to the poetry of Browning. Lectures will supplement the class-room discussion of his philosophic and religious poems.

Text-Books—The British Poets of the Nineteenth Century, edited by Page; Tennyson's Poetical Works, and Browning's Poetical Works, Cambridge edition. Elective for all students. Three hours.

5. **Advanced Composition.**

a. This course in higher composition is intended for a limited number of students who have done creditable work in Freshman English, and who desire by further study and practice to attain individuality and effectiveness of prose style. The course should appeal especially to those interested in journalism. The first term's work will be a study of newspaper making, of news and news values, and of getting the news. Time will also be given to an analysis of the structure and style of news stories, and to tentative efforts at news writing.

b. During the second term the student will have much practice in the writing of news stories of unexpected occurrences, of speeches, interviews, and trials, of follow-up and re-write stories, and of feature stories.

c. In the third term the student will practice the writing of headlines, editing copy, and proof-reading. In addition, he will write occasional news stories.

Text-Books—Bleyer, Newspaper Writing and Editing; Miller, Practical Exercises in News Writing and Editing. Elective for all students. Three hours.

6. A Study of English Language.

a. Old English grammar and phonology are taught by means of text-books and lectures. Selections from Old English poetry and prose are read. Three hours during the first term.

b. Middle English will be studied in the works of Chaucer. The prologue and five Canterbury tales will be read. Three hours during the second term.

c. The history of the English language, and its development from the Old English period to the present. Attention will be given to some modern English words and their use.

Text-Books—Smith, Old English Grammar; Globe edition of Chaucer; Krapp, Modern English. Elective for all students. Three hours.

V. THE DEPARTMENT OF GEOLOGY AND BIOLOGY.

PROFESSOR SULLIVAN.

PROFESSOR HARRELL.

ASSISTANT PROFESSOR ZIMOSKI.

A portion of the second floor of Webster Science Hall is occupied by this department. The Museum contains about 300 minerals collected from various parts of the world, 200 specimens of rock presented by the United States Geological Survey, a fine cabinet of 300 minerals and rocks presented by Goucher College, and a fine collection of Mississippi rocks and fossils, all thoroughly indexed. The excellence of the latter is yearly increased by donations from friends of the College, and a collection made by the professor and class on annual trips.

GEOLOGY.

PROFESSOR SULLIVAN.

1. (a) Lithologic and Physiographic Geology.

This includes a study of mineral crystalline forms, chemical composition, occurrence, and uses, with a description of the kind and arrangement of rock masses. Folios and topographical sheets of the U. S. Geological Survey will be used in connection with a study of physiographic features and processes. First term.

(b) Dynamic Geology.

This portion of the course embraces the study of the mechanical and chemical effects of the atmosphere, water, heat, and of life. Special attention will be given to some

phase of the subject, as the work of glaciers, and of volcanoes. Second term.

(c) Historical Geology.

In addition to the general historical geology, some attention will be given to economic products and to paleontology. Third term.

The College museum and the private museum of the head of the department afford minerals and fossils for class study.

Several geological expeditions regularly made in the fall and spring to localities easily accessible to Jackson, give the class a practical conception of this kind of surveying. The College is fortunate in being located in the midst of a region that is quite varied in geological character. Occasionally the faculty grants a week's leave of absence on trips to more distant parts. In the last month of the course special attention will be given to the Geology of Mississippi.

Lectures and recitations. Two hours. (Tuesday and Thursday 9:30-10:30.)

Text-Books—College Geology (Chamberlain and Salisbury), Conservation of Our Natural Resources (Van Hise).

Reference Books—Text-Book of Geology (Grabau); Text-Book of Geology (Chamberlain and Salisbury); Physical and Historical Geology (Cleland); Physiography (Salisbury); Text-Book of Geology (Geikie); Volcanoes (Bonney); Introduction to Geology (Scott); Journal of Geology; Economic Geology (Reis); Paleontology (Zittel); Foundations of Geology (Geikie).

The Master's Degree.

Graduate work as a minor subject is offered in Geology, and some regular field or laboratory work will be required. An examination must be passed upon a course of reading, as follows:

Physical and Historical Geology (Cleland); Chamberlain and Salisbury's Text-book of Geology; Tarr's Economic Geology of the United States; Conservation of Our Natural Resources (Van Hise); Geology of Mississippi. Selected articles in Geological Reports; Physiography (Salisbury); Paleontology (Zittel), Folios.

BIOLOGY.

PROFESSOR HARRELL.

ASSISTANT PROFESSOR ZIMOSKI.

The work of this department is designed to give the general outlines of Botany and Zoology with which every student should be familiar and at the same time, to meet the requirements for a Pre-medical Course in Biology. Courses 1a, 1b, and 1c will alternate each year with courses 2a, 2b, and 2c, the latter being offered in 1923-24. A laboratory course in Bacteriology is open to those who have had the courses in Botany, Zoology, and Chemistry 1a, 1b, and 1c. Its purpose is to make the student acquainted with some of the problems that confront the practical bacteriologist and to give him practice in examining milk and water.

BOTANY.

ASSISTANT PROFESSOR ZIMOSKI.

- 1a. This course consists of the structure and Physiology of seed plants.
- 1b. This course will cover morphology, development, and classification of plants.
- 1c. This course will be devoted to the study of ecology and economic botany.

One lecture and one laboratory period throughout the three terms. 2 hours credit. Text: Principles of Botany (Bergen and Davis).

ZOOLOGY.

ASSISTANT PROFESSOR ZIMOSKI.

- 2a. This course is devoted to the study of the Arthropoda.
- 2b. This course comprises a study of the Mollusca, vermes, echinoderma, coelentera, porifera, and the protoza.
- 2c. This course consists of a study of the vertebrates.

One lecture and one laboratory period throughout the three terms. 2 hours credit. Text: General Zoology (Linville and Kelly).

BACTERIOLOGY.

PROFESSOR HARRELL.

- 3a. The preparation of culture media and stains.
- 3b. The examination of cultures.
- 3c. A continuation of course 3b.

Two laboratory periods throughout the three terms. 2 hours credit.

Text: Bacteriology (Moore, Buchanan.)

VI. THE DEPARTMENT OF GERMAN. PROFESSOR HAMILTON.

The regular work in German begins with Course I, but for the benefit of those students who have not been able to make the required preparation in this subject, a preparatory course (Course A) is offered. This course, if taken under the supervision of the College and not used as an entrance unit, may be used as Junior or Senior elective. When thus used it counts two hours toward graduation. But all classes in German meet three times a week, unless otherwise specified. For entrance, Course I will count as two units, provided the student makes a grade of not less than 80.

For graduation, college work in German, French, or Spanish may be substituted for Greek in the B.A. course. In the B.S. course, modern languages may be substituted for Latin, classes in the three languages offered being interchangeable, hour for hour. But a student should consult the professors in charge before so planning his course as to include more than two modern languages. Any course not otherwise counted may be used as an elective.

Course A.

Texts-Books—Zinnecker, Deutsch für Anfänger; Storm, Imensee; Zschokke, Der Zerbrochene Krug; Heyse, L'Arrabiata.

Course 1 a, b, c.

Text-Books—Thomas, A Practical German Grammar; Revised; Chiles, Prose Composition; Gerstaecker, Germelshausen; Schiller, Wilhelm Tell; Freytag, Die Journalisten. For parallel reading: Schiller, Die Jungfrau von Orleans; Ernst, Flaschmann als Erzieher.

Course 2 a, b, c.—Lessing, Minna von Barnhelm; Freytag, Soll und haben; Heine, Die Harzreise; Goethe, Hermann und Dorothea; Sudermann, Frau Sorge, or Der Katzensteg; Hauptmann, Die Versunkene Glocke; Holzwarth, German Literature, Land and People.

Course 3 a, b, c.—Lessing, Nathan der Weise; Gothe, Sesenheim; Gothe, Gotz von Berchlingen; Schiller, Maria Stuart, and Cabale und Liebe; Thomas, A History of German Literature. Other works by Classic and Romantic writers will be given as parallel reading.

VII. DEPARTMENT OF MATHEMATICS.

PROFESSOR MITCHELL.

ASSISTANT PROFESSOR PATCH.

Prescribed Courses.

Course I is required of all candidates for degrees. Additional Course II is required of candidates for the B.S. degree.

- 1 (a) **Algebra.** Topics: Theory of Exponents, Graphical Representation of Linear and Quadratic Functions, Mathematical Induction, Determinants, Logarithms, Series.

Schedule: T. Th. S. 8:30 (Designated as Math. I, Sec. 2 in Schedule).

Text: Reitz and Crathorne's College Algebra.

- 1 (b) **Plane Trigonometry.** Topics: Generalization of Angles, Trigonometric Functions, Applications including Complex Numbers, DeMoivre's Theorem, and Solution of Triangles.

Schedule: Same as (a).

Text: Passano's Trigonometry.

- 1 (c) **Introduction to Analytic Geometry.** Topics: Coordinate Systems, Geometry of the Straight Line and the Circle.

Schedule: Same as (a).

- 2 (a) and (b) **Analytic Geometry.** Topics: A continuation of Course I (d) including Transformation of Coordinates, Conic Sections, The General Equation of the Second Degree, Elements of Geometry of Space.

Schedule: M. W. F. 9:30, Two Sections.

Text: Tracy and Wilson's Analytic Geometry.

- 2 (c) **Introduction to Calculus.** The Technique of Differentiation of Algebraic Functions with applications to Algebra, Geometry and Physics.

Credit: Three hours.

- 3 (a), (b), (c) **The Calculus.** Continuation of 2 (c) and the Elements of Integral Calculus with Applications. The course

is concluded by a study of the Elements of Differential Equations.

Text: Phillips' Calculus.

Schedule: M. W. F. 8:30.

Credit: Three hours.

- 4 (a) and (b) **Algebra.** Topics: Factoring; Linear Equations, Solutions by Graphs and by Determinants; Quadratic Equations, Solution and Theory of; Progressions; Binomial Theorem; and the topics of 1 (a).
- 4 (c) **Solid Geometry.** Topics: The Elements of Geometry of Space, Mensuration of Solids.

Elective Courses.

Advanced courses in Mathematics are varied from year to year. For the year 1923-1924 the following courses are offered which may be taken as undergraduate electives or as post-graduate work.

5 **Mathematical Analysis.**

A second course in the Calculus. The material of this course is largely drawn from Goursat-Hedrick's Mathematical Analysis.

6 **Analytical Geometry (Advanced).**

This course presents the elements of Projective Geometry considered analytically.

7 **Mechanics.**

An elementary course in statics and dynamics of a particle and rigid bodies.

VIII. THE DEPARTMENT OF PHILOSOPHY AND HISTORY.

PROFESSOR LIN.

MR. HARMON

***PHILOSOPHY.**

PROFESSOR LIN

The required courses in Philosophy are designed to give an intelligent view of the constitution of the mind, and to indicate the conditions of all valid thought. Only what is fundamental will be considered, and with that in view courses in Psychology are required for all degrees.

Logic and Ethics are elective for all degrees. In addition to these a course in the History of Philosophy will be offered,

*Courses in Philosophy not open to Freshmen or Sophomores.

which will be elective for all students fitted to take it. In this course a comprehensive view will be given of the results offered by the most noted thinkers who have attempted to frame a consistent theory of the material and the spiritual world.

***2. Elements of Psychology.**

Three hours a week. First term. Required for all degrees.

3a. Deductive Logic.

Three hours a week. First term. Elective for all degrees.

3b. Inductive Logic

Three hours a week. Second term. Elective for all degrees.

Text-Book—An Introduction to Logic (Creighton).

3bc. Ethics.

Two hours a week second and third terms.

Text-Book—Elements of Ethics (Davis.)

4abc. History of Philosophy.

Three hours a week. Elective for all Seniors.

Text-Book—History of Philosophy (Weber.)

HISTORY

PROFESSOR LIN

MR. HARMON

In the courses in History two things will be kept in view. Students will be required to acquaint themselves with the significant facts in the development of the nations studied, and to learn why these facts are considered significant. As far as possible, the causal connection between historical events will be indicated, emphasis will be laid on the idea that history is a record of the continuous development of the human race, whose growing self-consciousness manifests itself in the progressive organization of its moral and intellectual ideals into laws and customs.

In order to understand each people or nation studied, account will be taken of its literature, its religious and social institutions, its economic conditions, and the organization of its government.

Entrance credits for the two units in History will be required for entrance to this department. One of these must be

*See Education 2 (a), page 75.

in Medieval and Modern European History, listed as "History B" in the "Entrance Requirements" printed in this Register.

1.a,b,c.

Three hours a week. Required of all Freshmen.

In this course especial stress will be laid on Modern History and present-day problems. An attempt will be made to show how the problems and ideals of modern nations grew out of their past history, and how they are affected by international relations. This will be done as a preparation for the study of the governmental institutions of our own and other countries and as the basis of a correct understanding of the questions now engaging civilized nations.

Text-Books—Modern Europe (Hazen), History of Western Europe (Robinson), Historical Atlas (Shepherd).

2.a,b,c.

Three hours a week. Elective.

This course will be devoted to a study of the history of the United States from early colonial times to the present day.

Text-Book—Bassett's Short History of the United States.

3.a,b,c.

Elective for Juniors and Seniors. Three hours a week.

This will be a course in Contemporary History, and will be of wide scope. In addition to the texts specified, readings and lectures will be required and given.

Text-Books—Europe since 1870 (Turner). Introduction to World Politics. (Gibbon).

This course is alternative with a course in the History of the British Empire. (Given in 1924-1925).

Text-Book—A Short History of England and Greater Britain (Cross).

IX. THE DEPARTMENT OF PHYSICAL EDUCATION.

ASSISTANT PROFESSOR ZIMOSKI

The requirements in physical work are designed to cover the whole school year at the rate of two hours a week for each Freshman. Although this work is compulsory, considerable freedom in selection is offered. The sole aim is to create a healthy desire to engage in some form of recreation, under proper supervision, so as to benefit the student morally, mentally, and phys-

cally. This exercise takes the form of competitive games in order to arouse the proper interest, develop team work, teach initiative, strengthen the morale, teach true sportsmanship, and create a life-long interest in some form of sport which will benefit the student in after life. An idea is also gained as to the natural ability of each man and quite frequently students discover that they are really better in athletics than they thought they were and are encouraged to try for the varsity teams.

X. THE DEPARTMENT OF PHYSICS AND ASTRONOMY. PROFESSOR HARRELL.

The courses in this department consist of two years of Physics and two years of Astronomy. The department occupies a part of the second floor of Webster Science Hall. The laboratory is provided with all the essentials for carrying on the work in the various courses and with balopticon and moving picture machines as well as automatic balopticon for lecture purposes.

The work in Astronomy is carried on both in Webster Science Hall and in the James Observatory. The department is equipped with globes, tellurian, gyroscopes, and spectrometer for laboratory work.

The Observatory occupies a commanding position on the north campus and is equipped with a six-inch equatorial with mounting by Warner and Swazey and optical parts by Brashear. The other equipment consists of a sidereal chronometer, a fine clock, filar micrometer, portrait lens for photography, and a high grade surveyor's transit.

The observatory is open to visitors one night each week when the weather permits.

Entrance credit for at least one Carnegie unit in Natural Science is required for admission to this department, also a knowledge of Mathematics through Plane Trigonometry.

PHYSICS.

- 1a. This course consists of a study of Mechanics, Mechanics of Solids, Liquids, and Gases, and Sound.
- 1b. The work of this term is devoted to a study of the general principles of electricity and magnetism.
- 1c. This course is intended to make the student acquainted

with the fundamental principles of heat and light. Two lectures and one laboratory period throughout each term. 3 hours credit.

Texts: College Physics (Reed and Guthe).

Laboratory Manual: A manual of Experiments in Physics (Ames and Bliss).

- 2a. This course will be devoted to a study of batteries, electric circuits, electric power, electromagnetism, electromagnetic induction, electrical measuring instruments, and electric measurements.
- 2b. The purpose of this course is to study the principles and construction of the direct current generator and direct current motors; electrochemistry, principles of alternating currents, alternating current generators, transformers and alternating current motors.
- 2c. During this term the work will consist of a study of power stations and the distribution of power, electric lighting, electric heating, electric traction, the telephone, electromagnetic waves.

One lecture and one laboratory period throughout each term.

2 hours credit.

Texts: Elementary Electricity and Magnetism. (Jackson and Black).

- 3a. Heat. This course consists of a study of thermometry, calorimetry, thermodynamics, kinetic theory of gases.

Text: Millikan's Heat.

- 3b. Light. This course treats of reflection, refraction, interference, dispersion, color, polarization.

Text: Millikan and Mill's Light.

- 3c. Sound. This course comprises a more extended study of the principles of sound and the physical theory of music.

Text: To be selected.

One lecture and one laboratory period throughout the three terms. 2 hours credit.

Courses 3a, 3b, and 3c, will alternate with courses 2a, 2b and 2c, the latter being offered in 1923-24.

- 4. The Teaching of Physics. A lecture course on the teaching of Physics, designed for those who are preparing to teach. One lecture period throughout the three terms. 1 hour credit.

ASTRONOMY.

- 1a. This course will be devoted to a study of the Earth, the Moon, Time, and the Constellations.
- 1b. This course consists of the study of the Solar System, the Planets, Comets, and Meteors, and the Sun.
- 1c. This term will be devoted to the study of the development of the Solar System and the structure of the Siderial Universe.

One lecture and one night in the observatory throughout the three terms. 2 hours credit. Texts: Introduction to Astronomy. (Moulton's Revised.) Laboratory Astronomy (Wilson).

- 2a. Surveying: This course will cover the work usually required for laying out the public lands. Text: To be announced.
- 2b. Navigation. The course consists of the fundamentals of Navigation. Text: To be announced.
- 2c. Spherical and Practical Astronomy. This course covers the subject of Spherical Astronomy and the theory of astronomical instruments with exercises in making and reducing observations. Text: Practical Astronomy (Campbell).

If the student contemplates taking Astronomy 2a, 2b, and 2c, it will be well to take Astronomy 1a, 1b, and 1c, in the Junior Year.

XI. DEPARTMENT OF RELIGIOUS EDUCATION.

(W. S. F. Tatum Foundation.)

PROFESSOR BOWEN.

ASSOCIATE PROFESSOR FERGUSON.

The courses offered in this department embody the ideals of Southern Methodism in so far as these are related to the matter of a proper curriculum for religious education departments in the colleges of the church. The aim is to lay the foundation for vocational workers in this field. The program now being formulated proposes to make heavy demands upon the trained services of the laity. For this reason the desire is to emphasize the fact that these courses are not for ministerial students only.

On completion of twelve of the nineteen session hours offered in this department the General Sunday School Board of

the M. E. Church, South, through its Department of Teacher Training in cooperation with the faculty of the college, will award a certificate in Religious Education. Of the courses listed below, Bible 1 and 2 and Religious Education 1a, 1b, 1c, 2a, 2b 2c, 3a compose ten session hours counted as required work on the certificate in Religious Education. The two remaining session hours are elective and may be taken from Bible 3a, 3b, 3c or Religious Education 3c, 4a, 4b.

For purposes of convenience the work offered in Bible is put under a separate head from the other courses.

BIBLE.

1a. Old Testament History.

The various stages in the development of the Hebrew nation are considered in this course, from the beginning of human history and the ancestry of the Hebrew People to the Division of the Hebrew Empire. The historical books of the Old Testament are read in connection with a text on Hebrew History. Two hours a week. First term. Required of Freshmen.

Professor Ferguson.

1b. Israel's Political, Social and Spiritual Development.

This course deals with the age of Israel's Ripening Maturity as a divided kingdom along social and spiritual lines, with special emphasis placed upon the prophetic interpretations of the relation of Jehovah with His people. Two hours a week. Second term. Required of Freshmen.

Professor Ferguson.

1c. Judaism.

A brief study of the establishment of Judaism and its effect upon the Hebrew people. A survey of Hebrew history from the return from the Babylonian captivity down to the destruction of the Jewish State. Recitations, lectures and reports on parallel reading. Two hours a week. Third term. Required of Freshmen.

Professor Ferguson.

2a. Life of Christ.

A rapid reading of the gospel narratives is followed by a more careful study of the order of the events based upon

the use of a harmony of the gospels. Recitations, lectures, parallel readings. Two hours, first term. Required of Sophomores.

Professor Bowen.

2b. Life of Christ, continued.

The work of the preceding term is carried forward along the same lines. Two hours, second term. Required of Sophomores.

Professor Bowen.

2c. The Apostolic Age of Christian History.

A rapid survey of the records and letters of Christianity from the resurrection of Jesus to the close of the age of the apostles. Two hours, third term. Required of Sophomores.

Professor Bowen.

3a. Later Jewish History.

A study of the Persian, Greek, Maccabean and Roman periods of the history of the Jews along with the more important sacred literature of each age. First term.

Professor Ferguson.

3b. Social Teachings of Jesus.

The messages of Jesus on the question of social adjustments are studied. Also the implications coming out of these messages bearing on the modern task of the church. Three hours a week. Second term.

Professor Ferguson.

3c. Social Teachings of Jesus.

A continuation of courses offered above, with a survey of the condition of the world when Christ appeared. Three hours a week. Third term.

Professor Ferguson.

RELIGIOUS EDUCATION.

1a. The Christian Religion.

A study of the fundamentals of Christianity as these can be grasped by the undergraduate. The evidence supporting the theistic conception of God is examined. The effort is made also to interpret the task of the church in the world. Three hours, first term.

Professor Bowen.

1b. Teaching the Christian Religion.

The activities involved in the learning process are studied in their relation to the aims and methods of the church school. Personal observation of the process of teaching religion as it is being carried on in up-to-date church schools will be a feature of this course. Three hours, second term.

Professor Bowen.

1c. The Curricula of Religious Education.

This course calls attention to the teaching values of the Bible, the principles of curriculum-making and the best curricula wrought out by leaders in this field. Three hours, third term.

Professor Bowen.

2a. Principles of Religious Education.

The student will investigate both in class-room and library the basis of a theory of education in religion in the home and church school. The aims, social principles, subjects and institutions of religious education are studied also. Three hours, first term.

Professor Bowen.

2b. Educational Psychology.

The work of this course is done in the Department of Education. See Education 2b. Three hours, second term.

Professor Noble.

2c. Organization and Administration of Religious Education.

Principles of program-making are considered. Special emphasis is placed on the work of the rural church. The training of teachers, supervision, the administrative management of pupils, the week day church school system for the community, approved plans of Church School buildings and equipment are topics that will be discussed. Three hours, third term.

Professor Bowen.

3a. History of Religious Education.

The following topics will be considered: Religion in primitive education, education among the Hebrews, early Christian Schools, developments in the field of religious education since 1784. Three hours, first term.

Professor Bowen.

3b. The Religious Life of Children and Youth.

A study of child psychology as it sheds light on the dawning religious consciousness. Also of adolescent psychology as a help to understanding the religious crises of this period. Three hours, second term.

Professor Bowen.

3c. Expansion of Christianity.

An introductory study of the modern aspects of missionary endeavor. The aim is to provide a basis for adequate measurement of the present difficulties and for intelligent interpretation of the principles involved. Three hours, third term.

Professor Bowen.

4a. General Church History.

A study of the history of the Christian Church from its establishment to the Reformation. Recitations, lectures and reports on parallel readings. Three hours, first term.

Professor Ferguson.

4b. History of the Reformation.

This course is a continuation of General Church History with stress laid upon the Protestant Reformation in Germany and its effect upon the world. During the latter part of the term a survey will be made of the beginnings and development of the Christian Church in America. Three hours. Second term.

Professor Ferguson.

4c. The Problem of the Rural Church.

The purpose of this course is to make a study of the existing conditions in the rural life of America and their effect upon the rural church. Recitations, lectures, reports on parallel reading, and visits to nearby rural churches. Three hours. Third term.

Professor Ferguson.

XII. THE DEPARTMENT OF ROMANCE LANGUAGES.

PROFESSOR SANDERS.

MRS. C. A. BOWEN.

This department offers courses in French and Spanish. The regular work in French begins with Course I, but for the benefit of those who have not been able to fulfill the entrance require-

ments in this subject before entering college, a preparatory course (Course A) is offered. This course, when taken under the supervision of the College, and not counted as an entrance unit, may be used as a two hour Junior or Senior elective. Classes meet three hours a week. For entrance Course I will count as two units, provided the student makes a grade of not less than 80.

For graduation six hours of college work in French or German or Spanish are accepted as a substitute for Greek in the B.A. course. In the B.S. course six hours of French, Spanish, or German are required, and six additional hours may be substituted for Latin, classes in these three languages being interchangeable, hour for hour. A student should, however, consult the professors in charge before planning to take more than two modern languages. Any course, not already counted, may be used as a Junior or Senior elective.

FRENCH.

A. An elementary course covering 52 lessons in Fraser and Squair's Shorter French Course together with the reading of simple texts. The class will be taught in sections so that the student may receive more individual attention.

- a. Fraser and Squair's Shorter French Course. Especial attention is given to pronunciation.
- b. Grammar continued. Reading of simple texts begun.
- c. Reading continued, dictation, oral practice.

1. The methods of French A will be continued according to the needs and aptitudes of the class. Part II of Fraser and Squair's French Grammar will be completed, with further drill on the irregular verbs and with weekly compositions. The entire year will be devoted to the careful reading of texts from nineteenth century prose.

So far as is practicable this class will be conducted in French. Especial attention will be paid to the irregular verbs, to idioms and to pronunciation.

- a. Selected stories by Daudet; Merimee, Colomha. Grammar Composition.
- b. About, Le roi des montagnes; De Maupassant, Selected Stories. Grammar. Composition.

c. Sand, *La mare au diable*; Labiche et Martin, *Le voyage de M. Perrichon*. Grammar. Composition.

2. Extensive reading in class and in parallel assignments. Special stress is laid on the literary side of the works read. The first term will be given to contemporary French prose. The second term will be devoted to Moliere. In the third term Corneille and Racine will be read. Special emphasis will be laid on the social and political conditions during the reign of Louis XIV, and on the literary ideals of the age.

a. Contemporary French Prose. Loti, *Ramuntcho*. Bazin, *Les Oberle*; Bordeaux, *La peur de vivre*.

b. Moliere *Le medecin malgre lui*, *Les precieuses ridicules*; *Les femmes savantes*. Matthews, Moliere.

c. Corneille, *Le Cid*; Racine, *Athalie*. Strachey, *Landmarks in French Literature*. Lanson, *Histoire de la litterature francaise*.

3. a. French Prose of the Seventeenth Century.

b. French Romanticism. Chateaubriand, *Atala*; Hugo, *Les travailleurs de la mer*; Balzac, *Le Pere Goriot*.

c. French Lyric Poetry of the Nineteenth Century. Lamartine, Hugo, de Musset, Gautier. Henning's *Representative Lyrics of the Nineteenth Century*.

SPANISH.

The requirements for admission and for graduation in Spanish are the same as those in French.

Admission to Course A will be restricted to Juniors and Seniors in college, or to students who have completed one year of modern language study. Under no condition will a student be permitted to begin French and Spanish the same year. Two entrance units in Spanish will be required for admission to Course 1.

A. An elementary course in grammar and reading with constant oral practice.

a. Hills and Ford, *First Spanish Course*.

b. Grammar continued. Schevill's *First Reader in Spanish* or Pittaro's *Spanish Reader*.

c. Grammar completed through Lesson XXXVIII. Reading continued.

1. This course will be devoted to the reading of modern Spanish prose. Special attention will be paid to the irregular verbs, and to idioms. Practice will be given in reading Spanish at sight and there will be much practice in speaking Spanish.

a. Dorado, *Espana Pintoresca*: Alarcon, *Novelas Cortas*. Hills and Ford, *First Spanish Course* completed.

b. Palacio Valdes, Jose; Galdos, *Mariandela*.

c. Blasco Ibanez, *La barraca*.

2. *Classic Spanish Prose and Drama*.

a. Cervantes, *Don Quijote*.

b. Lope de Vega, *La moza de cantaro*. Calderon, *La vida es sueño*.

c. *Modern Drama*. Nunez de Arce, *El haz de lena*; Echegaray, *El gran Galeoto*; Benavente, *Los intereses creados*; Ford, *Main Currents of Spanish Literature*.

Fitzmaurice—Kelly, *A History of Spanish Literature*.

XIII. THE DEPARTMENT OF SOCIAL SCIENCES.

PROFESSOR NOBLE.

PROFESSOR LIN.

The aim of this department will be rather to do well a small amount of work than to cover a large field. Courses in Economics, Political Science, and Sociology will be offered. While these are elementary in their scope and nature, they will serve as a sound basis for further study in these subjects, and will be useful to those who seek to understand and improve our financial, political, and social life and institutions.

ECONOMICS.

PROFESSOR NOBLE.

3. (a) A comprehensive survey of the field is undertaken, dwelling particularly upon the laws governing the production and consumption of wealth, business organization, wages and labor, rent, interest, etc. Recitations, readings, and discussions. Two hours, first term.

(b) A continuation of work of the preceding term. Two hours a week.

(c) A continuation of the preceding course. Two hours a week.

SOCIOLOGY.**PROFESSOR NOBLE.**

1. (a) A study of the social phenomena of rural and urban communities, of social forces, and the processes of socialization. Three hours, first term.

(b) The study of processes of socialization continued. The course is concluded with a study of social products, and sociological principles. Three hours, second term.

(c) Rural Sociology. See department of Religious Education, page 93.

POLITICAL SCIENCE.*PROFESSOR LIN.**

4. (a, b, c) During the First Term and part of the Second Term the governments of Europe will be studied. In the Second Term a brief course of lectures will be given on the governments of South American States and on that of Japan.

During the Third Term the government of the United States will be studied and some attention will be given to the self-governing dominions of the British Empire.

Text-Books—Ogg's Governments of Europe, and Beard's American Government and Politics

XIV. EXTENSION DEPARTMENT.**PROFESSOR NOBLE, Director.**

It is the purpose of the Extension Department as far as possible to make the resources of the college available for people in their homes. Many who aspire to self-culture have not the means or the inclination to come to college for it. To such the Extension Department holds out a helping hand.

The college has a valuable equipment of books, buildings, and trained instructors. It is the privilege of the people to call for such service as the college can render; it is the duty and privilege of the college to devise ways and means for placing its service at the disposal of the people.

AID TO METHODIST MINISTERS.

Library Extension Service.—One of the most effective ways in which we are serving the ministers of Mississippi is in placing

*Not open to Freshmen or Sophomores.

the books of our library subject to their call. We not only do this free of charge but we pay postage one way on any book that may be ordered from us. Books may be kept out for the period of one month.

AID TO HIGH SCHOOL PUPILS AND TEACHERS.

Debates and Public Speaking.—The Extension Department provides assistance to high school pupils in the selection of speeches and in the preparation of debates.

Lectures and Commencement Orators.—Members of the College faculty are available for lectures and public speeches on commencement, anniversaries, and other public occasions.

Judges and Referees for High School Contests.—On short notice the Extension Department can provide properly qualified judges and referees for all high school contests, athletic and literary.

AID TO CLUB WOMEN.

Lecturers and Advice.—Members of the College faculty from time to time lecture before women's clubs. We are in position to provide assistance in the planning and preparation of club programs.

Address the Director for explanatory bulletins and further information.

W. N. TAYLOR	Executive Secretary State Teachers' Association
OSCAR NEWTON	President State-National Bank
SYDNEY SMITH	Chief Justice State Supreme Court

Others who will be brought to Jackson by the State Department of Education.

GENERAL STATEMENT.

The Summer School of Millsaps College for 1923 will open on June 11th, and will continue for nine weeks.

The Summer School will be conducted for teachers who desire work in High School subjects and College students. High School students who have a little work to make up for entrance will find opportunity here to do so. Teachers may secure renewal of license by attendance for six weeks.

In opening its doors to the teachers of the State, Millsaps College feels that it is serving a long felt need in that some provision should be made at the capital of the state for teachers to spend a few weeks during their vacation and at the same time take such work as they may desire.

All the advantages of the other summer schools will be afforded in the way of renewal and extension of license, and lectures provided by the State Department of Education.

College graduates who lack the required number of hours in Education will find, here, an opportunity to make up some of those hours. Students with two years of College training may, with six hours of Education, be granted a state license without examination by the State Board of Examiners.

The amount of work that a student may take will be limited to two subjects with a total credit of five hours.

There will be a series of lectures by special lecturers from time to time. Announcement will be made beforehand.

The tuition fee will be \$25.00 and a matriculation fee of \$3.50 will be charged. Board will be \$25.00 or \$26.00 per month, or at the rate of \$8.00 per week. For a period of less than a week the rate will be \$1.50 per day. Those who expect to live on the campus will bring with them a pillow, bed-linen, towels and toilet articles. The dormitories and dining hall will be open

on the evening of June 11th. Fees and board payable in advance.

Those expecting to enter the Summer School should make reservation by sending to the director a deposit of \$5.00.

The following courses will be offered:

Chemistry 1	Secondary Education
Chemistry 2	English 2
Education, Child Psychology	History 2
Education, High School Methods	Economics
Education, Principles of	
French A	} Two courses according to demand.
French 1	
French 2	
German	High School Algebra
